

Scholarship Application

In order to have a marching band season, our organization must raise \$74,000. To get to that number, we divided the total dollar amount for the budget by the number of members that have committed to be a member of The Marching Blue Devils. This year, that number is 150. If all families could meet the \$500.00 pledge, we would meet our goal. We understand that it may difficult for families to meet that pledge total. We also do not deny participation due to inability to financially contribute. That said, we must get an accurate number of students with scholarship needs in order to begin seeking financial assistance in the community. The information you share will not be made public, nor will it be shared with any sponsors. As a volunteer parent organization, we need to keep an accurate record. This scholarship is submitted to the CHS BOP Board to help us gauge need and ask community members for specific dollars.
