FLOOR NEUTRALIZER – Detergent and Stripper residue Neutralizer

DESCRIPTION

Floor Neutralizer provides a combination of wetting agents and organic pH neutralizers that remove the alkaline residues of detergents, wax strippers and ice-melting products from floors and carpets without harming the finish. It also eliminates the caustic browning of rugs and carpets due to detergent and shampoo residues. This concentrated formula makes it a versatile product for customer applications and it even helps increase the penetrating, adhering and leveling properties of floor finishing products.

FEATURES

- **MAY BE USED ON HARDWOOD AND VINYL FLOORS**
- **MAY BE USED ON METAL SURFACES**
- **MAY BE USED ON RUGS AND CARPETS**

USE AND DIRECTIONS

Neutralize detergents and stripping residues: Combine 1-3 ounces per gallon in rinse water and mop floor

Neutralize carpets after shampooing and cleaning: Combine 1-3 ounces per gallon of water in the carpet extraction equipment

Remove salt and de-icer residues from floors: Combine 3 ounces per gallon of water and mop on floor. Pick up neutralized solution with mop or wet vacuum
