SMCAS General Meeting and Presentation on Friday May 3, 2019

Brian Day

NASA AMES Research Center

Journeys to the Moon with NASA

Friday, May 3, 2019 , [College of San Mateo, Building 36](#)

SMCAS General meeting at 7:00 p.m. ISC Room, room 110

Presentation at 8:00 p.m. [Planetarium](#)

Free and open to the public, free parking.

As NASA, the nation, and the world prepare to celebrate the 50th anniversary of the first human landing on the Moon, we will examine NASA's missions of lunar exploration. We will review the missions that led to Apollo as well as the six individual Apollo missions, explore missions that came after Apollo, and finally look ahead to what's in store for future lunar exploration. After the talk, you'll have a chance to touch an actual piece of the Moon!

Brian Day is the Lead for Lunar and Planetary Mapping and Modeling, as well as Lead for Citizen Science and Outreach at NASA's [Solar System Exploration Research Virtual Institute](#) (SSERVI). As program office project manager for Lunar and Planetary Mapping and Modeling, he oversees data visualization and analysis tools designed for mission planning, planetary science, education, and public outreach. In his citizen science role, he coordinates programs with internal and external partnering organizations, focusing on providing opportunities for students and the public to directly participate in NASA science and exploration.
