### TS23 - FIRST TIME REALIZATIONS

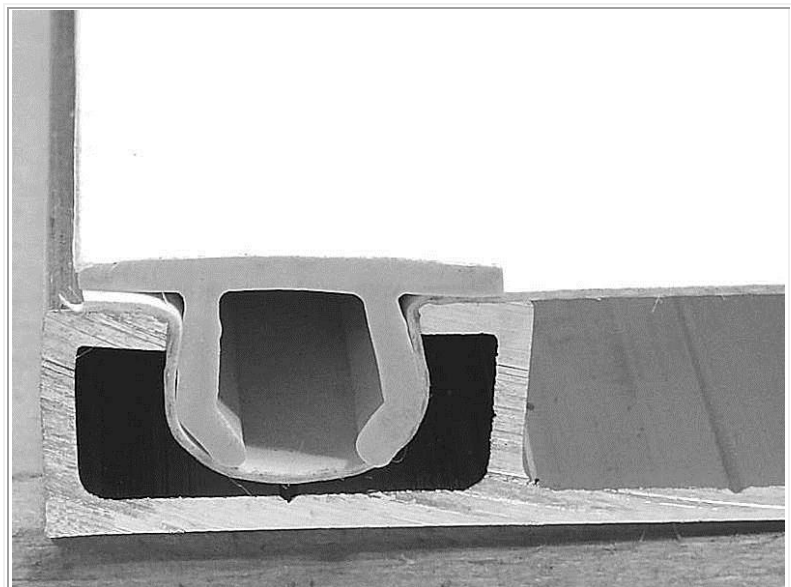

**Our customers had their hands on a new Banner Stretching System and no previous experience...**

**See what they have realized for their first installations!**

The TS23 is a low-cost and flexible extrusion ideal to stretching printed graphics that can be: Vinyl, mesh vinyl, polyesters, fabrics, or canvas.

And this for many applications:

- Indoor and outdoor banners
- Ceiling graphics
- Box trucks and trailers
- Curved walls

Details of the TS23 aluminum extrusion and the TS79W (White PVC Insert) stretching a printed vinyl.

This box truck has the top right corner cut.  
This is not an issue for our Banner stretching system,  
with the same drum like stretch.
