

# HERITAGE

Here's the bow for your tournament-shooter customers. The Heritage, designed by world-renowned custom bow makers, incorporates the famous "duoflex" principle which provides a balanced deflex-reflex limb with full working recurve. Has hand-sculptured grip of beautiful imported hardwood. Forward weight distribution of the handle section eliminates the need for outside compensating devices of any kind. A hand-tailored thumb rest completes the balance so necessary for precision shooting.
