

# High Elevation Archaeology – Professional Workshops/Discussion Groups

May 4-6, 2017

## Event Registration

Space in the following groups is limited, and will be filled on a first-come basis. So please, mark 'attending' for those that you are committed to participating in. Also if you later find you cannot attend, please let us know since there will be a waiting list. There are no fees for any of these events, but we do need you to let us know if you'll be attending as soon as possible to help us arrange appropriate rooms for each and to reserve your spot. NOTE: marking 'Might Attend' does not reserve you a place -- it just helps us plan for room sizes. Details of each session on pp. 2-3.

Name:

Email Address:

Will Attend      Might Attend      Not Attending

1. Thursday 4 May 3:00-4:30 PM. Peterson, Marcia.  
Historic context for high elevation archaeology

High Elevation Research Perspectives

Please complete and email to either Larry Todd [lctodd@colostate.edu](mailto:lctodd@colostate.edu)

**The sooner you complete, and return your form, the more likely you'll have  
a place in all the sessions you select. Remember, seating is limited.**
