MY FOUNTAIN OF YOUTH

As some of you may
know, I am a hot

springs nut! I must have close to a dozen
guide books describing close to a thousand
soaking springs throughout the western
Unites States and British Columbia. I have
even floated in a beautiful hot springs canyon
in southern Mexico!

As cold as it has been lately here on Orcas, it
has got me thinking about this favorite past
time of mine. I thought I should pass on
some of my experiences here in Washington.
Sadly, there are very few to choose from in
our beautiful state. All but one requires TWO
round trip ferry rides!

I was about to describe a Columbia River
hotel/hot springs facility known as "The
Carson" when it dawned on me that we might
just have Washington's most picturesque
soaking facility right here on Orcas! For
\$150, you and nine of your closest friends can
experience one of the most beautiful, private
soaks at Doe Bay with even a private sauna
to round out your 90 minute adventure.

There are several distinct differences between
Doe and the other Washington hot springs.
First, Doe Bay's mineral water comes out of
the earth cold and is heated to just the right
temperature by external heat. Secondly, Doe
Bay is set in one of the most breathtaking
settings. Third, you and your group will have
complete privacy. THE TUBS ARE
YOURS! Lastly, you will not be faced with
hotel bills, ferry fares, and the three to five
hundred mile drive home!

HAPPY SOAKING LOCALLY!

It is an honor to introduce the newest member of the
Island Hardware Family!

Betty Robyn Taft

Born January 10, 2023

8.8 pounds and 20.3 inches long

It's not often that I am speechless, but this little bundle of joy has stolen my heart. My youngest daughter, Tessa, and her husband, Steve, have welcomed their first child, a healthy little girl. Both mom and baby are doing great and dad is totally smitten, jumping right in to help. This is my third grandchild to bless our family.

One LUCKY Grandpa!
