**Date:** March 15, 2023

**Subject:** GHC- Message to Clarify the Vote on the color change of our buildings

Hello Owners;

This message is to clarify the "Vote on the color change of our buildings".

You are being asked to approve the new color palette of:

- Alabaster
- Sea salt
- Acacia haze
- Linen

**Do you approve the proposed change in color palette of the buildings in the community, from the current existing color palette of brown and cream, to a new color palette of alabaster, sea salt, and linen, along with optional acacia haze (as ultimately approved by the Board of Directors), as a material alteration of the Common Elements?**

The paint committee made a suggestion for what could go where.

The placement of these colors throughout the Gulf Harbors Condo complex will be determined at a later point. These colors may be intermixed such that sea salt could be the main color and alabaster the accent color, for example.

For now, the intention is to get the new color palette approved.

**If not approved**, the buildings will be repainted brown and cream.

Thank you.

Please see below – the **mock-up conception** is shown on several GHC buildings with the "paint color change" applied. Important: Colors *reproduced online* vary from actual color(s) selected. Note: the gutters/ soffits will NOT be altered from current brown color as indicated in the color rendering. Check **CH1 Library** for color samples and see **March COMET Page 8**, for more **PAINT** information. The new color palette has to be approved before any decision on what will be painted where, is made.
