

**The
Avion
Travelcade
Club.**

**Unforgettable
people,
unforgettable
adventures.**

Avion Travelcades don't just travel for the sake of travel. We visit interesting places that you want to see. And the people you travel with are fellow Avion owners. Like yourself, they won't settle for anything less than the best in life. That's what's awaiting you

as a member. Ask your Avion dealer for a club folder and the latest copy of *Travelcade News*, or write to Avion Coach Corporation, 1300 E. Empire, Benton Harbor, Michigan 49022.

This is Avion Silver. More room with your view.

Avion Silver. It's wide. Long. Designed *inside* to offer you luxurious traveling, without compromising the sleek, smooth Avion styling *outside*. Avion lets you see the country without leaving the comforts of home behind. They're all wrapped up in the unique Avion Silver coach body—glare-free, carefree anodized aluminum. Avion living is like none other. It's the ultimate in trailering for those who aren't willing to settle for second best.

Total luxury. **The Avion LaGrande**

LaGrande is the ultimate in trailering. Every standard Avion feature, plus deluxe Provincial cabinet trim and hardware; Provincial folding chair and a carved table leg; skirted sofa bed; luxurious—yet practical—carpeting; wooden spice rack; deluxe shower curtain with liner, gold-veined decorator mirrors; and quilted, color-coordinated bedspreads. Designed to bring you unthought-of-elegance.

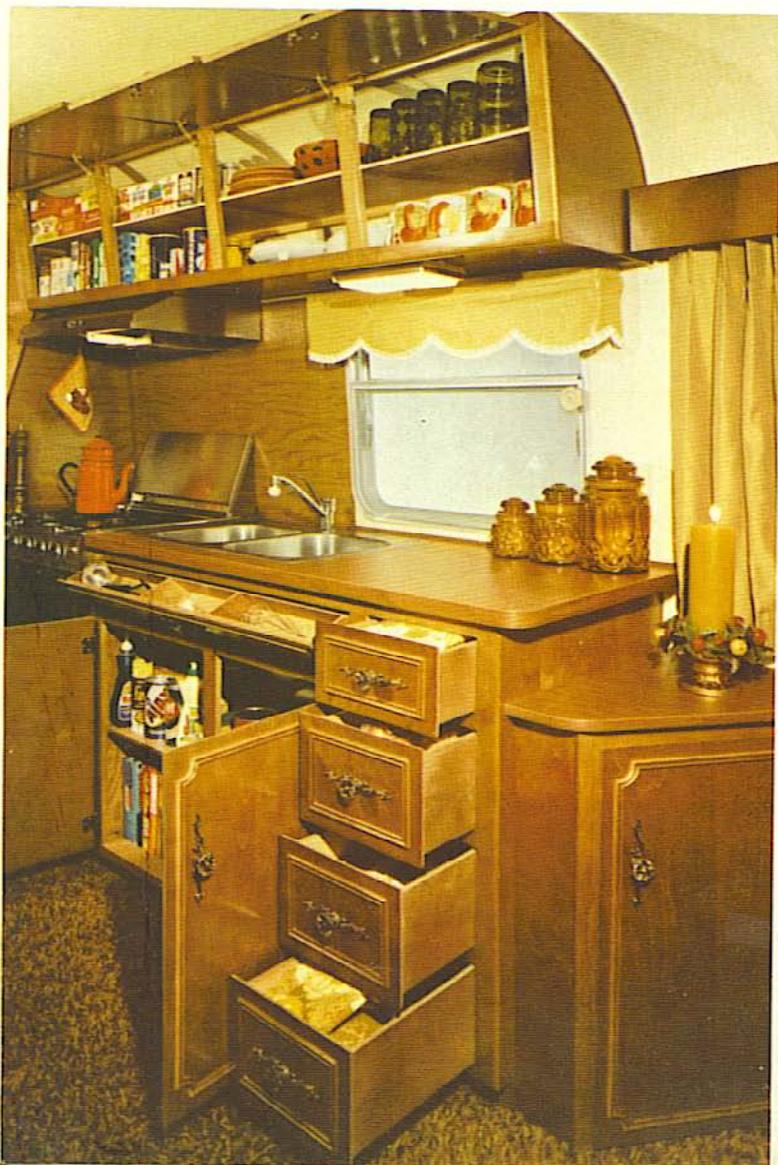

If you love handcrafted furniture, inspect an Avion trailer.

The woodgrain finish of the practical mica counter tops is the only synthetic material used in Avion cabinetry. Frankly, we wouldn't think of building an Avion any other way. Avion cabinetry is fine furniture. Each piece of wood is cut precisely to fit, and painstakingly hand-rubbed to a superb finish. There are no gaps, no rough edges, no pre-fab shortcuts. Just genuine birch veneers mounted on full-dimensional wood frameworks. And every door and cabinet is sanded, stained and sealed. Then resanded and finished before fitting. Behind doors and inside drawers is more usable storage space than you would have thought possible.

Kitchen cabinet space? More than you'd imagine possible. Double-shelved overhead storage area features swing-up doors. Drop-down utensil tray. Deep drawers and a full-sized, double-shelved storage area under the sink give you room to spare. Sink covers serve a double purpose as a maple chopping block and tumbler holder.

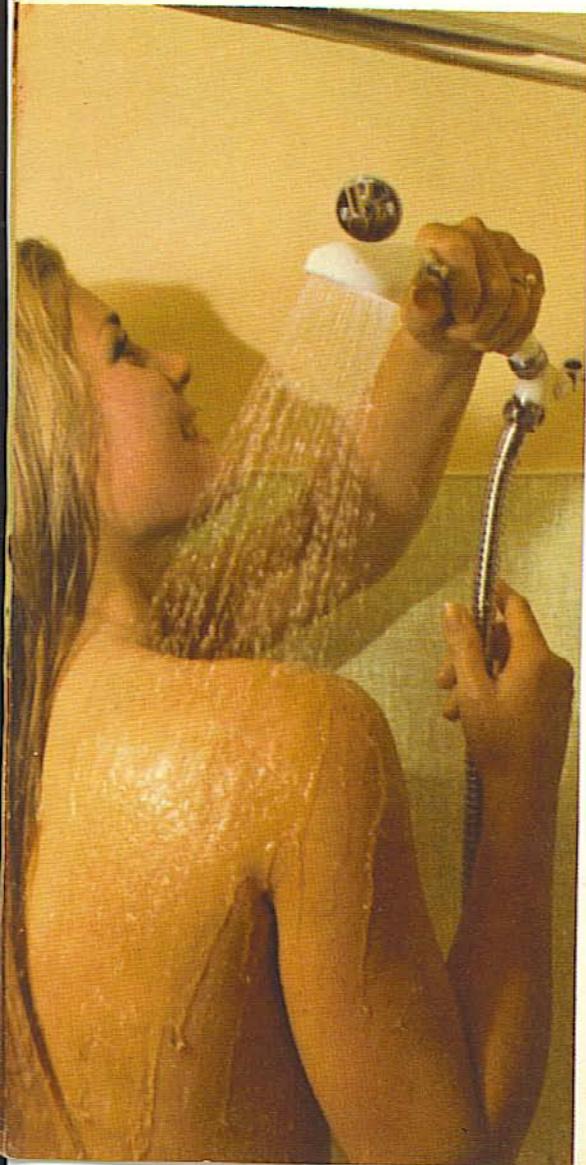

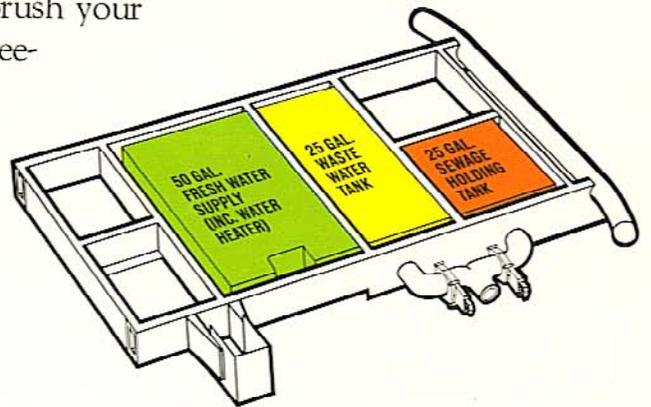

Cabinetry? Even the 7½-cubic foot refrigerator-freezer is inlaid with hand-finished birch. And it's flanked by handsome cabinets, a pantry with adjustable, pull-out shelves, and a full-length wardrobe. A double storage cabinet is within convenient overhead reach.

The Avion Silver water system. Another reason for going first class.

The surprisingly spacious Avion bathroom features appointments coordinated to your selected decor, including carpeting. Vanity with adjustable mirror, linen closet, medicine cabinet, lots of storage space. All Avion standards.

When you travel in an Avion, you can enjoy a shower between hookups. Or wash dishes and brush your teeth at every meal stop. Our unique three-way water system eliminates the daily need for hookups, so you can venture confidently away from the crowd with complete peace of mind.

This is Avion Silver. Featuring full-size twin or double beds for a perfect sleep.

Every Avion appointment is designed to enhance a feeling of total comfort. Twin beds with Sealy Posturepedic mattresses are 75 by 32 inches. The front sofa converts into a 76 by 54 inch bed. And you can sleep up to six people when two optional bunks are placed over the permanent beds. Private reading lights over both beds are standard. A swing-out television shelf and roof-mounted rotary antenna package is available, too. The master bedroom is well supplied with wardrobes, storage lockers, handcrafted drawers. Not an inch of space is wasted.

This is Avion Silver.
Dine in spacious elegance.
Or snack in efficient informality.

There's nothing uncomfortable about Avion living. And that includes dining. In seconds, a concealed mica-topped table swings up from the wall to seat four or more. Provincial chairs complete an elegant dining room suite, perfectly matching the room decor. Choose natural lighting from three wrap-around tinted windows, the soft glow of valanced lighting, or bright, direct overhead lighting. Shelf space is always close at hand.

The twin lounge dinette. An exclusive Avion option.

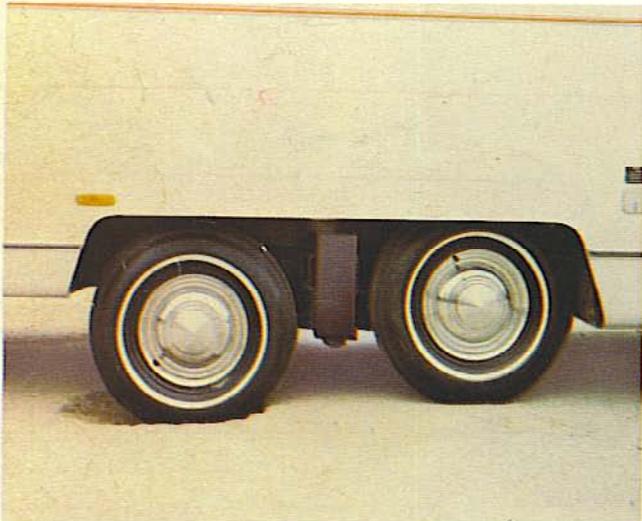

The twin lounge dinette, available in all Avion models at nominal extra cost, gives you even more room to enjoy trailer life. Each dinette unit makes up into a comfortable bed at night. During the day, they're great together as a conversational seating arrangement. Cushion backs are curved at the front for that special comfort only Avion gives. A storage area under the front shelf provides room for extra table leaves. The Provincial coffee table with durable Formica top, also optional, is available in all Avion models—including those with front sofa. With its unique wooden folding legs, the table easily is stored upright in the wardrobe unit.

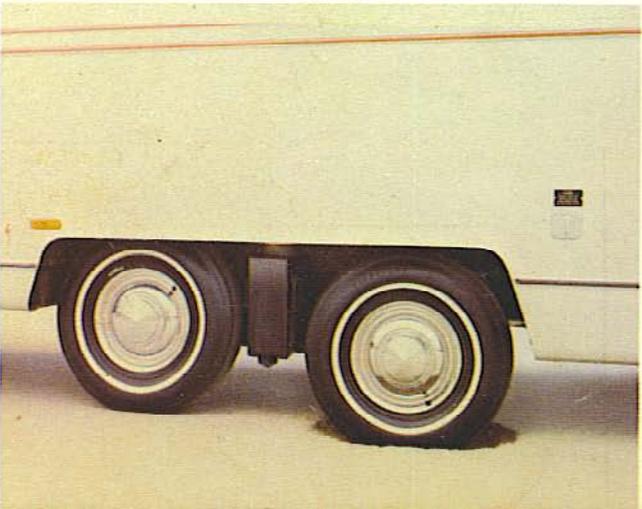

This is Avion Silver. **The perfect combination** **of suspension smoothness** **and triple-beamed toughness.**

Because you may spend as much time on the road as you do in camp, Avion's MOR/ryde suspension is standard equipment. It copes with the roughest road surfaces you're apt to encounter. MOR/ryde is a combination of tough, resilient rubber blocks bonded to steel plates, an independently suspended walking beam and the highest quality shock absorbers available. The MOR/ryde suspension makes it easy for you to stop smoothly, every time. It extends tire mileage and allows you to tow your Avion without worry of sway or jolt. Our suspension system is built to the same exacting standards as our rugged triple-beam frame, the solid base of every Avion.

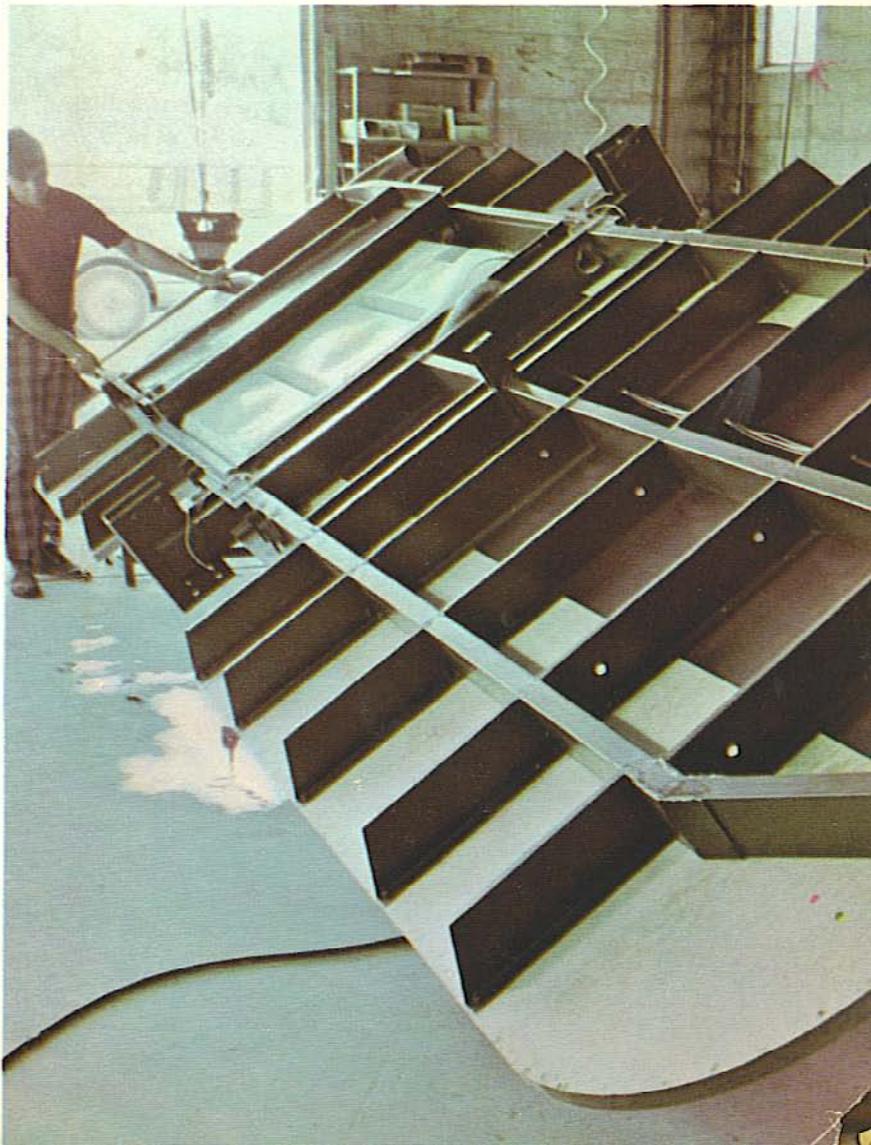

MOR/ryde suspension, standard on every Avion, is in control at all times. As your Avion travels across a bump or rut, the front wheels ride down or up, while the rear wheels maintain their level position.

This absorbing action of MOR/ryde continues as the rear wheels sink into the rut, or ride over the bump. Equilibrium is governed by the front wheels, which have now traveled past the rut. Result? No bouncing, no frame twisting. Just a flat, smooth, gentle ride.

Avion builds strength from the bottom up. Our triple-beam frame of heavy-duty steel is five inches deep on 25 and 28 foot trailers, and six inches deep on 31 foot models. Bolted to the frame is a 2 $\frac{3}{8}$ inch insulated floor.

This is Avion Silver. Quiet, all-weather comfort. Strength and beauty more than skin-deep.

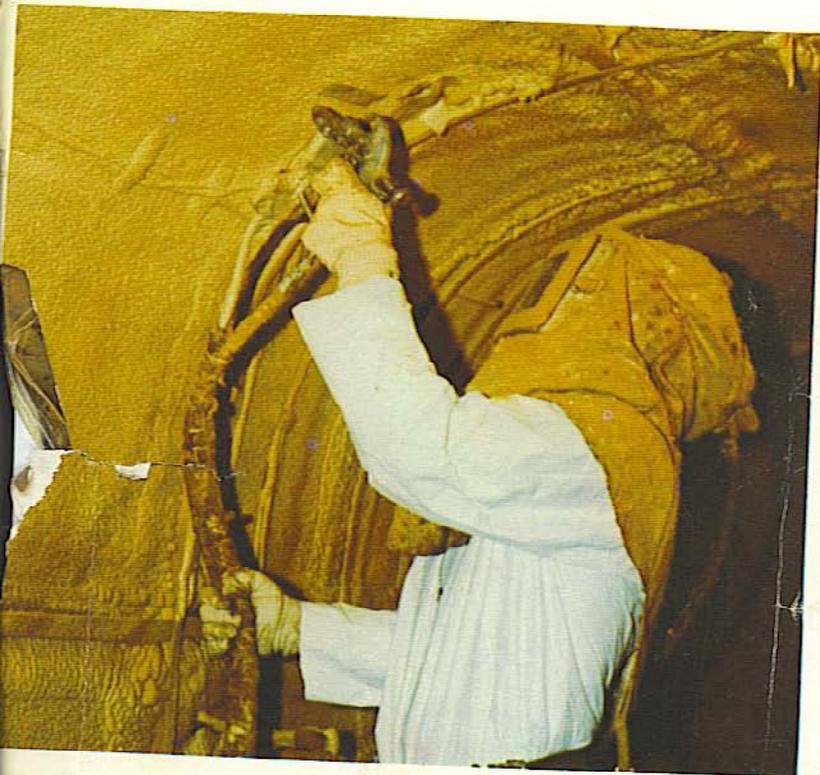

Avion's double-wall aluminum construction is a product of balanced engineering that keeps you cool in summer, warmer in winter, waterproof, comfortable and dustproof all year 'round. Every Avion is insulated with Thermo-X urethane foam, far superior to fiberglass insulation. Thermo-X completely seals all wiring, and adds sidewall rigidity.

Astrovision safety windows are tough and impact-resistant. They're tinted to reduce heat gain and increase privacy. Large vent panes provide 41% more ventilation area.

Avion's exterior finish is as rugged as it is beautiful. Using aircraft construction techniques, we riveted anodized aluminum to achieve a strong, non-glare, no-care surface. No plywood, no plastics.

Avion Coach Corporation reserves the right to make changes at any time, without notice, in prices, color, materials, equipment specifications and models, and also to discontinue models or make improvements without incorporating such changes in previous models.

Thermo-X insulation keeps Avion trailers cooler in summer, warmer in winter. Won't shift out of position, leaving trailer parts unprotected.

Tinted, impact-resistant windows add privacy and beauty to your trailer. They're tinted to keep your trailer cooler, and to filter the glare of direct sunlight.

Avion's exclusive anodized aluminum finish resists scratches, rust, dents and abrasions, and comes clean with just sponge and water. You'll never need to polish Avion Silver.

AVION COACH LIFETIME WARRANTY

We warrant the basic construction of Avion Trailers against defective material or workmanship. On models equipped with MOR/ryde suspension systems this warranty includes axles, brakes, hubs, spindles, shock absorbers and rubber springs. We will repair or replace defective parts at no charge for parts or labor. All repairs to be made or authorized under the terms of this warranty shall be made or authorized by Avion Service Corporation, 1576 East Empire Ave., Benton Harbor, Michigan 49022. Authorization or appointments must be obtained in advance. Transportation of the trailer to and from the service center will be the responsibility of the owner. For service under the terms of individual manufacturer warranties for the various appliances or equipment in your Avion, you must contact an authorized service company of the appliances or equipment involved. This warranty shall in no event be construed to cover damage caused by collision, negligence, act of God, riot, improper use, or normal wear and tear. The above warranty shall be limited to the original owner.
