

# Snowbear Club News

**Empty Bottle Return** – Saturday, November 28<sup>th</sup> @ noon until 4pm  
-anybody needing to bring their empties earlier, please call Walter 228-1281 or Perry 228-3646

## **Trail Work**

We have lots to do in this area. So far only the Alaskan and Chelsea Loops have been ridden by quads. Thanks to our volunteers, lots of overhangs and windfalls were removed that will assist groomer operators when opening the trails.

Looking for volunteers who would be willing to ride the trails by quad and do some prep work to help us out. This is a great opportunity to do a bit of bird hunting and help out the club at the same time.

Please call me before you head out because we can coordinate our efforts to get as much done before the snow stays.

## **Club Meeting**

Sunday, November 29<sup>th</sup> @ 7pm

This is open to anyone. Coffee and sweets will be available

## **Hornepayne Geography**

We groom approx. 300km of trails in our area. If you want to find a new fishing hole or hunting spot, knowing the trails is a great way to start. In addition, using the trails as a reference could help you out if should you ever become lost. Here is a map of our trails and if you want a PDF version, please go to the Hornepayne Snowbear Facebook Group and take a copy.

Stay Safe and Have Fun!!!!

Perry 868-1111 or 228-3646
