

# GESTATION OF THE CHRISTS

## THE DUALITY OF PROPHECY

*A Parallel Timeline of an Advent and Birthing*

*'Nevertheless, it is good to be zealous if it serves a noble purpose—at any time, and not only when I am with you. My children, for whom I am again in the pains of childbirth until Christ is formed in you, how I wish I could be with you now and change my tone, because I am perplexed about you.'*—Galatians 4:18-20

The purpose of this study is to present some perspective on the return of the *Christ Star* and present some observations based on parallel timelines from when the first *Christ Star* appeared. This study suggests that the factor of the general period of the gestation of Jesus Christ appears to mirror exactly to the time when Jupiter entered the ‘womb’ of Virgo that is to comprise the astronomical alignment of Revelation 12 in the Fall of 2017. This alignment pertains to the *Great Signs of Virgo* and the 7-headed Red Dragon that are to appear as ‘Signs’ in the Heavens, at least astronomically. These Signs however, are interpreted by some to be yet to be fulfilled at the midpoint of the Tribulation period and after the rapture of the *Body of Christ*. The *Virgo Sign* appears to cast its prophetic shadow from their future realization which is chronologically at the mid-point of the 2520 day count of the ‘Hour’ to come to test the world, its inhabitants and Lucifer.

The *Virgo Sign* as an astronomical event on September 23, 2017 is also looking back as the shadows from the past echoes forward the multi-layer prophetic significance of its many variables but converge astronomically at least on September 23, 2017. Such cosmic and prophetic variables include a *Virgin, the Sun, the Moon, Jupiter, a Manchild* that is to rule the world, etc., or mainly the Christ. It is believed by many that study the cosmology of Christ that supposedly Jesus was born on September 11, -3 BC. With this bench mark, the first timeline presented in the illustration will show the 39 week gestation period of Mary with Jesus. The Bible teaches that Mary, as a virgin was impregnated with Jesus by the power of the Holy Spirit.

When using NASA’s data of eclipses, one observation is that the gestation period of Jesus was approximately 270 days and accented by a Tetrad of partial lunar eclipses. Jesus was to fulfill the type of the *Seed of the Woman* as promised to Eve, a type of ‘virgin’. This promise of YHVH in the *Garden of Eden* was in fact the 1st prophecy even given to Humanity, and that to a woman first. It was the promise of a redemption through her bloodline that would genetically produce a human Messiah or *Anointed One*; a ‘Chosen One’ that would reverse the curse and fall of Humanity due to her disobedience. If the birth of Jesus as presented in the first timeline was actually on the 11th of September of -3 BC, then the conception would have been around December 14, -4 BC. This would put that time around the Hanukah season or the *Festival of Lights* and would correspond to Jesus becoming the *Light of Israel* and to the world.

## The Parallels of Prophecy

Jesus is the aim of all prophecy as Revelation 19:10 states. He came to ‘light’ or rekindle the blown-out fire of Humanity’s flame. He came to pierce the darkness of mankind bent on a certain course for eternal destruction due to sin at the hands of the deception of Lucifer, the other ‘Christ’ or ‘Anointed One’. This study seeks suggests that approximately 1 lunar cycle prior of 29-30 days on August 11, -3 BC, the first of 3 conjunction of *Venus* and *Jupiter* occurred. This planetary conjunction was and is the *Christ Star*. This phenomena is at the core of the duality of this Biblical prophecy and the 2 timelines that announced in the past the birth of the true Christ and perhaps is announcing now in the future the advent and birthing of another *Anointed One*.

What is so significant then is that the *Venus-Jupiter* conjunction had a triple 3x witness pertaining to a ‘birthing’ of a Christ, Jesus which is the only true one. Foremost the conjunction of *Venus* with *Jupiter* occurred at the forefront of Leo, the *Royal Sign* of the constellations. *Venus* is associated with the Christ as it is one of the Messianic signatures of Jesus’ identity and credentials; the title of the *Bright and Morning Star*. The planet *Jupiter* is known since ancient times as the *Planet of the Messiah* or the ‘Righteous King’. These 2 planets also incorporates the female and male attributes even astronomically to produce, as it were an offspring from the cosmic union.

<b>Hanukah</b> Dec 14, -4 BC	<i>(The Gestation Period of the Christs)</i>	<b>Christ Birth</b> Sep 11, -3 BC
	<b>270 Days</b>	

**Jupiter enters Womb of Virgo**  
Dec 14, 2017

**Jupiter is ‘birthed’**  
Sep 9, 2017

The difference in these 2 parallel prophetic timelines is that this study seeks to point out is that the gestation period of the true Christ or *Anointed One*, Jesus produced a human baby yet to grow-up into a full human mature man. The timeline in these *Last Days* appears to have a parallel ‘gestation’ time, astronomically tied to *Jupiter*’s retrograde in *Virgo* as it is associated directly with the gestation period as it were in the ‘womb’ of *Virgo*. Thus this 2<sup>nd</sup> astronomical timeline could have a prophetic implication of a gestation of an *Anointed One* or Christ to be ‘birthed’. It however depicts a full-grown man as it were, the *Manchild* being ‘birthed’. Thus could this astronomical event suggest the advent of the usurper *Anointed One*, Lucifer by way of his coming AntiChrist?

Such astronomical signs pertaining to alignments and conjunctions in the sky of a coming ‘Christ’ did accompany Jesus’ birth. What followed next after the birth of Jesus on September 11, -3 BC was as it were, “fireworks” going off in the Heavens, literally. Starting on September 14, -3 BC, *Jupiter* started its retrograde and triple 3x conjunction with *Regulus*, the *Royal Star* in the constellation of *Leo*. Thereafter on December 25, -2 BC was when *Jupiter* became stationary as if it ‘stopped’ before it progressed forward from its retrograde. This apparent ‘standing still’ of *Jupiter* occurred over the southern sky in *Virgo* and was the *Sign* that the Magi were following and that led them to Bethlehem, to Jesus the true Christ or *Anointed One*.

## The Cosmic Foreshadowing

Again if the September 11, -3 BC date is correct, then from Jesus' birth to the visitation of the Magi in Bethlehem on December 25, -2 BC was approximately 470 days or 1 year 3 months and 14 days. This day could have suggested in itself a mathematical variant of *pi* or 3.14, etc. What is also similar in the parallel timelines is that a *Great Sign* appeared about 2 years prior to the birth of Jesus. What is also noted as an observation astronomically, is that the climax of Jesus' birth was initially announced preliminarily by a 'great sign' in the Heavens as well. This cosmic sign was in the form of a *cosmic hexagram*. This *Great Sign* is called a 'Star of David' configuration of planetary alignments. The alignment amazingly also suggested a type of cosmic announcement of a crucifixion event. This planetary alignment suggesting or depicting a 'cosmic crucifixion' was configured when looking down into the Solar System from a top view.

It perhaps served as an omen and foreshadowing that the birth of the King of Righteousness, the *Anointed One* was to be birthed, but born for the purpose to die on a cross and be crucified as Psalm 22 and Isaiah 53 suggests. This is the aspect of the promise and prophecy of the 1<sup>st</sup> coming Messiah of Israel that the Jews refused to accept. Such could not conceive that their Prince had to be put to death first for the transgression of sin. Such did not fully comprehend that Jesus' mission was to be fulfilled in dual advents. In Luke 24:25-26 it sates. '*Then some of our companions went to the tomb and found it just as the women had described. But Him they did not see. Then Jesus said to them, O foolish ones, how slow are your hearts to believe all that the prophets have spoken. Was it not necessary for the Christ to suffer these things and then to enter His glory [first]?*'

This type of narrow-mindedness or myopic vision then is now hindering the *Body of Christ* from suspecting that, in terms of the Rapture, there can only be 'one' and that at the end of the Tribulation period. Such fail to realize that as with Jesus' dual advents, there are also more than one rapture as it pertains to a timing and a spiritual body to be 'birthed'. The cosmic rendition of the crucifixion lasted for about 120 days or a triple set of 40 days, which the number 40 speaks of a time of testing and evaluation. The initial configuration of this *cosmic hexagram* began on March 2, -5 BC. This was first discovered and calculated by John Charles Webb. From the approximate 120th day which would be around the beginning of July, -5 BC to when Jesus, the Christ was born in September 11, -3 BC was 802 days.

Nothing would seem out of the ordinary of such a span of time and of astronomical significance if it were not for the return of the same *Christ Star* in 2015. As noted, what is amazing to consider is that in the parallel timelines presented, the *cosmic hexagram* correlates to this 2015 return of the *Christ Star*. It is also amazing to observe that the same exact number of days occurred from when the *Christ Star* returned and first appeared on June 30, 2015 to when the planet *Jupiter* is to the 'birthed' out of the 'womb' of *Virgo* in the heavenly signs on September 9, 2013, some 802 days also. What is further intriguing is that both have the same December 14 delineation of the start of the 'gestation' period within a 'Virgin', etc.

## The Other Christ

This study seeks to highlight the observation that the *cosmic hexagram* was a prelude to the coming gestation period and birth of the true *Anointed One*, Jesus Christ.

Perhaps the advent of the *Christ Star* at this point and time of the *Last Days* is likewise signaling the coming of a birthing of the Nemesis of the true Christ, the AntiChrist by way of the usurper Lucifer as the detested *Anointed One*. This study is not insinuating that at that precise time of September 9, 2017 when *Jupiter* is ‘birthed’ out of *Virgo* is when the AntiChrist will be ‘revealed’ or disclosed. However such a striking parallel timeline might suggest a milestone in the prophetic fulfillment of such. It is believed that the conjunction of *Jupiter* with *Venus* that occurred on June 30, 2015 at the forefront of *Leo* as it was in -3 BC had not occurred since that time.

### **Christ Star**

Aug 11, -3 BC

Venus-Jupiter conjunction

### **Christ Star**

Jun 30, 2015

/-----/

**2018** Years

Venus-Jupiter conjunction

This span of time would make it 2018 years apart and perhaps it even suggests the year 2018 might be a most prophetic and monumental year as far as an ‘advent’ of an *Anointed One* is concerned. It will be in 2018 that Israel will reach a milestone of a 70 year anniversary since its ‘birth’ in 1948. Many are convinced that perhaps such a time will be when the false Messiah will be revealed to and accepted by Israel. Others believe it could be the start of Daniel’s last prophetic week of 7 years that will be initiated. The question remains, what is the *Christ Star* of 2015 signaling? Is it also announcing a coming Christ to be ‘birthed’ from a ‘Virgin’ as in the *Great Sign of Virgo*, at least astronomically on September 9, 2017 as it was in September 11, -3 BC?

This study only seeks to ascertain what it looks like when one superimposes the 2 timelines from when the gestation period of Jesus began by being placed into the womb of Mary. There does appear to be a parallel prophecy occurring as the Christ was birthed and the 1st *Christ Star* appeared to when the return of the *Christ Star* occurred since 2015 and perhaps the AntiChrist is to appear?. One can see an approximate parallel timeframe and storyline match with the modern timeline of similar time markers in the past, at least astronomically as it pertains to when *Jupiter*, as the *Planet of the Messiah* was ‘placed’ in the ‘womb’ of *Virgo*, etc. The matching is right down to within days of the end of the *cosmic hexagram* and the beginning of the gestation periods of Jesus and *Jupiter*.

This study suggests however that the Christ or *Anointed One* in 2017 is not pertaining to the Rapture of the *Body of Christ*, nor of the return of Jesus but the advent of the false Christ, Lucifer by way of his AnitChrist. In Ezekiel, it does state that Lucifer is a ‘Christ’. Lucifer’s nature even bears such a title in his name as Lucifer is an ‘Anointed Cherub’. His eternal contention with Jesus revolves around this legal claim of this ‘Christhood’ and the very Throne of YHVH. It will culminate in Lucifer’s proclamation in the Holy of Holies that he is to be worshipped as the Christ and sit on YHVH’s Earthly throne. This contention will be played-out in the coming advent of the AntiChrist and the true Christ.

## **Disinformation**

To reiterate, what is rather amazing to consider is that the approximate time of the gestation of Jesus from Hanukah of December 14, -4 BC to September 11, -3 BC is the same approximate time, even to the start day of when *Jupiter* started its ‘gestation’ within the ‘womb’ of *Virgo*. This time span was and will be approximately 270 days from when *Jupiter* entered the ‘womb’ of *Virgo* on December 14, 2016 to when it is to be birthed on September 9, 2017, just 3 days shy of September 11. This December 14, 2016 date of when *Jupiter* appears to enter the ‘womb’ of *Virgo* is predicated on the delineation of the lines of *Virgo* in the sky based off of the ancient Chaldean rendition of the constellation. The modern *Virgo* lines used by modern computer software versions such as Stellarium does not have the *Vir 51* star as the edge marker for *Virgo*.

Based on the modern line versions, *Jupiter* entered *Virgo*’s womb approximately on the 20th of November, 2016. Nonetheless what this study suggests is that there appears to be parallel timeline associations. These involve the mutual gestation periods and *Christ Star* that as the first birthing of the Christ led to Jesus, the true Messiah, it would appear that perhaps the ‘gestation’ of *Jupiter* in *Virgo* and the return of the *Christ Star* will result in the advent of the False Messiah. This AntiChrist though will have an advent of a fully grown man-child that is to be ‘birthed’ or revealed to the world as Jesus was. It is Biblical to surmise that the antitypes of the Biblical characters sometimes appear to have dual meanings as do the constellations and even the planets in the meaning of their names for example.

It is also well understood that Lucifer is the master copycat and counterfeit of what YHVH has provided in the realization of Christ and His Work that began to be fulfilled, is being fulfilled and will be fulfilled by Jesus as the true *Anointed One*. As there was much disinformation about the Tetrad Blood Moons, so it is occurring again with this next great ‘prophetic sign’ of the *Virgo Sign* of Revelation 12. Many that are propagating the frenzy now of the *Great Virgo Sign* to occur on September 23, 2017 are erroneously attributing it to the ‘birthing’ of *Jupiter* at that time. Others are associating this cosmic alignment with the Rapture and to coincide with Rosh Hashanah. All these assertions are not correct. The *Great Virgo Sign* occurs after Rosh HaShanah and at that time, *Jupiter* will have been ‘birthed’ 13 days out.

Others are also erroneously surmising that Elijah is to appear on the Passover season in 2017. As Elijah is believed to be 1 of the 2 *Witnesses*, they cannot appear until the beginning of the 2nd half of the 7-year Tribulation period. This will coincide with the rapture of the 144,000 that had evangelized the world during the first 1260 days and are seen in Heaven thereafter singing the *Song of Moses*, etc. The 2 *Witnesses* are to be given authority once the *Abomination of Desolation* is set up at the halfway point and also the *Mark of the Beast* is initiated. These 2 *Witnesses* will minister precisely in the streets of Jerusalem and the 3<sup>rd</sup> Temple. This time will be for Israel as it was with Jezebel and Ahab and the drought of 3.5 years over the land then as it will be in the future. It will be the *Time of Jacob’s Trouble* when the *Remnant of Israel* as portrayed by the Revelation 12 Great *Virgo Sign* is taken to Petra.

It will be a time when Israel is yet again to be called to the ‘Valley of Decision’ that will literally culminate in the *Battle of Armageddon* and the blood will pave the *Valley of Jezreel* to Jerusalem. What is of most significant concerning this coming AntiChrist that is different is that aside from being celebrated astronomically as was Jesus with the *Christ Stars*, the advent of the signaled *Anointed One* or Christ to come will be a fully grown man already developed, thus the *Manchild*. The concept of the *Manchild* that is ‘birthed’ on one level can be attributed to the coming Antichrist in that perhaps one of the meanings of the *Great Virgo Sign* is to forewarn that this advent is about to occur.

Although the parallel timelines speak of a duality of prophecy, the modern one suggests an advent of a fully formed and grown human man, thus the *Manchild* notion, connotation and difference from the timeline of Jesus, the true *Anointed One*. The 2 timelines of the Christs appear to parallel the gestation period of each and suggest the Biblical concept of a birthing, a Christ, a Virgin and a Dragon all to be played once again in the *Last Days*. Now if some sort of Biblical and prophetic event does take place on September 9, 2017 pertaining to the coming of the Antichrist, that remains to be seen but if at least astronomically, it does appear to parallel the end of gestation of a Christ figure pegged to a *Christ Star* that is to be presented to the world.
