

# LEE'S SUMMIT

## M I S S O U R I

---

August 14, 2020

To Whom it May Concern,

We have had the pleasure of featuring Craig Gray's *Popsicles* sculpture as part of our inaugural Downtown Sculpture Walk in Lee's Summit, MO. We are fortunate to have had the opportunity to work with Craig.

This larger-than-life ode to summer has been a vibrant addition to our community and has helped us create visibility and engagement in previously inactive areas of our downtown areas. Craig's work has been well received by our residents and visitors and many people stopping to take pictures and to take a closer look. We hope that as awareness of our program grows that we will be able to continue to attract artists of Craig's caliber.

It is evident that Craig has accumulated years of experience in working with communities across the country. His professionalism and expertise throughout the installation process made a significant impact on our efforts to launch our new public art program.

It has been a pleasure to work with Craig and to feature one of his pieces. Please feel free to reach out to me with any questions you may have.

Yours Truly,

Glenda Masters  
Cultural Arts Manager
