

## **EASTPORT 32**

*“What are you doing this weekend?”*

The Eastport 32 is a series built thirty-two foot long yacht, inheriting its classical lines from the Chesapeake Bay Deadrise, the waterman’s working vessel. Each boat is constructed with pride and care using modern composite materials, innovative design and attention to detail. All with an attractive factory direct pricing and builder warranties for outstanding value in today’s market.

Cruising comfortably at 25 knots and top speed of 32 knots with standard fuel efficient twin Volvo 260HP common rail diesel engines, burning only 14 Gallons per hour, the Eastport 32 has a range of over 400 miles on a single tank and a “go anywhere” shallow draft of only 22 inches with maximum maneuverability for ease of docking. Designed with a deep V on entry and soft flare in the bow, a moderate aft deadrise angle of 12 degree’s with hard chines and lifting strakes for a dry, comfortable ride.

Features include the innovative dropdown tailgate/swim platform for easy access to the water, an enclosed head and a double “V” berth in the forward cabin and ample seating in the large open cockpit which converts into a “bunk” and an on deck Wet bar/Galley for entertaining. The luxurious “Pilot House” helm seat is the center of the ergonomically designed steering console with great all-round visibility and an outdoor feel, with an extended hard top for protection from the elements. The Eastport 32 is for lovers of water sports, entertaining, fishing and the great outdoors.

**LOA:** 32 ft 6 inches  
**LWL:** 31 ft  
**BEAM:** 11 ft 6 inches  
**DRAFT:** 22 inches
