- Are you looking to develop the skills needed to tackle complex plumbing repairs?
- Do you want to save money on tradesman by doing it yourself?
- Save money, have fun and develop your plumbing skills with **Build Train**.

Space on this course is limited and early booking is essential

Our intermediate plumbing courses are “hands-on” training opportunities aimed at those looking to develop their existing plumbing skills further. This will allow delegates to carry out complex plumbing repairs without the need to turn to tradesman for routine maintenance. You will be getting involved in practical sessions and will be tackling advanced plumbing tasks.

The course will cover the following areas; however the level of detail will be determined by the group’s wishes:

- Copper pipework, bending and soldering
- Waste pipe work - 32mm and 40mm
- Fixing leaks including taps and tanks
- Valves – Do I repair or replace?
- Emergency leak repair
- Where to source supplies and save money

You will get dirty so working clothes are essential. Changing facilities are available on site so please arrive promptly to ensure the course starts on time.

Course Cost £95

This includes all tuition, materials and access to tools. Safety footwear is a legal requirement for attending the session. We do have some available for loan or sale onsite. If you would like to purchase footwear just contact us no less than 14 days ahead of the course and we can arrange this for you.

How to Apply Full pre-payment of course fees is required to enrol you on the course.

Non-attendance will not result in a refund being offered.
