Be an HT50 Expert! Just Watch and Learn!

The HT50 Training Program:

- **Part 1** reviews the clinical capabilities and applications for use of the HT50.
- **Part 2** the step-by-step process of setting up the HT50 for any patient.
- **Part 3** discusses how to ventilate the pediatric patient and airway leak management on the HT50.

These presentations are fully animated with audio.

The HT50 Interactive Guide

Includes a "virtual" HT50 ventilator. You can use the section "Ventilator Tour" as a virtual user guide to become familiar with the HT50, even you don't have one in front of you.

Go to Ventilator Tour / Front Panel /

Just go to www.ventilators.com/HT50Training
turn up your speakers, sit back
and get to know the HT50 Ventilator.
