

# Messaging Codes and Usage

*All messages must be sent to in real time.*

The following messages are in the messaging portion of your Qualcomm.

Messaging is totally separate from Hours of Service. Data must be added to both systems

These messages are routed to dispatch to keep them informed of your status. Proper use of messages will get you help dispatch to get your next load sent to you faster. Sending messages are a requirement and must be done correctly.

**Please keep this in your truck and refer to it as needed to send your messages.**
