This Hemp Chain-of-Custody form is to be retained as a record by the each party.

This Document is designed to document the custody of live material, and samples from NC Licensed Hemp Farmers to the locations the plants will be planted or the material will be sampled. This document is just an example of an internal document our companies use to transport material, this is not a state program form. This document is for informational purposes only.

Hempleton Investment Group encourages all participants to use documents like these to help protect employees and representatives that are not licensed by the state when carrying plant material, seed, clones, or tissue cultures.
