

I am pleased to post a listing of health professionals my wife and I have personally trained in oxidation methods. Please note that this is a partial list only. Others might not want their names listed for business, legal, or other reasons. You might go to www.acam.org or www.icimed.org to look for a listing of integrative doctors in your area. Many list some form of oxidation therapy in their practice summary on these sites. Generally these doctors will know who in their area offers oxidation.

I have included contact information, the date of training with us (if available), and specific oxidation techniques these professionals currently offer, as these professionals so informed me. I will update this list as more are trained, or more previously trained indicate that they wish to be listed. ***Please note that I have limited the listing of services provided here to those services related to oxidation only. Most, if not all of these fine healers will offer chelation, other IV and detoxification services, hormone balancing, and perhaps many other healing modalities.*** I have not listed those services here. Any physician wise enough to use oxidation, in my humble opinion, will offer a great home for overall healing. Please note that high dose intravenous (IV) vitamin C is an oxidation therapy! (UV and UBI connote ultraviolet blood irradiation therapy). (OHT is intravenous ozone high dose therapy, the same as "10 pass".) DIV is direct intravenous ozone gas administration. Listing by state or country is in alphabetical order. Please look at each area for closest.

USA

Alaska

Michael Ellenburg ND, MPH, L.Ac.
3500 Latouche St. Suite 360
Anchorage, Alaska 99508
907-563-2366
