Chief Wiseman,

Washington Surveying and Rating Bureau (WSRB) has reviewed the information provided to us concerning Fire Station 73. The information provided indicates that the fire station meets the criteria for an improved insurance rating. Effective June 1, 2018, WSRB will update the rating for Fire Station 73. We recommend residents that live around Station 73 contact their insurance agents, after June 1, 2018, to determine the relative effect this update to Station 73 will have on their insurance premiums.

Thank you for providing this updated information to WSRB.

This evaluation was not conducted for property loss prevention or for life safety purposes. The purpose was to gather information needed to determine a fire insurance relevant Public Protection Classification that may be used to develop fire insurance rates or loss costs. Our evaluation criteria incorporate many national recognized standards, such as those developed by NFPA and AWWA, and has been filed with and approved by the Washington State Office of the Insurance Commissioner.

If you have any questions, feel free to contact me.

Sincerely,

Eric Cunningham
