He would like permission to park in this area and for his neighbors to cease using this portion of his property as a drive through.

Mr. Fred Aycock also addressed the Council regarding the No Wake rule at the lake. He said no wake equals no fun for his grandchildren and has limited their family's recreational activities for the summer. He went on to say that the lake has gone down almost a foot and most houses seem to be out of the water at this time. He suggests making the area of the lake known as Weddington Draw as a no wake section and opening the rest of the lake to recreational activities. ### **B. Consider and Discuss Daily Water Usage Since Adoption of Stage 3 Water Restrictions Variance.**

Mayor King explained that he had requested from Mr. Archer the usage numbers since the variance had been granted to ensure that it wasn't over taxing the portable water treatment plant. Mr. Archer said that the daily usage was averaging around 367,000 gallons per day and the plant was operating at full capacity of around 800,000 gallons per day. These numbers show that the plant is being able to meet demand. Mayor King said he would like to discuss this item at the next meeting and see usage numbers for the next two weeks to make sure they are accurate and then the Council could discuss an additional variance or even moving to Stage 2 Water Restrictions. No action was taken on this item.

### **C. Consider and Discuss Closing Bailey Street Between Franklin Avenue and Lake Bernie Road.**

Mr. Richard Harrison spoke from the gallery as he was the one who had approached Mr. Archer about closing this road. He explained that in the sixteen years that he had lived adjacent to this street, it had never been actualized and was currently overgrown and not usable. Mr. Archer explained that the city would not be abandoning the right of way, but would rather just be closing the road so that it would never become a thoroughfare. Mr. Harrison further commented that he was only interested in clearing and maintaining the property.

Mr. Archer explained that all the employees are well versed in safety protocols and there are standard operating procedures in place. All public works employees also attend monthly safety meetings.

Councilmember Green went on to question which property was owned by the city around the college for planning and zoning purposes.

Councilmember Johnson would like to discuss opening at least some portions of the lake to recreational activities at the next meeting.

Councilmember Green added that in light of the current police officer shootings, he thinks the city should bring awareness and support to the 'Back the Blue' campaign here in Cisco. The Council discussed how best to do this and it was suggested that the city look into signs and/or banners.

Councilmember Green also reminded the Council of the Back to School Bash which will take place August 21, 2016 at the Myrtle Wilks Community Center.

Mayor King further reminded the Council that the Cisco Gun Show would also take place at the community center on the weekend of July 30<sup>th</sup> and 31<sup>st</sup>.

Mayor King informed the Council that he had attended a meeting with Catholic Charities regarding a Long Term Recovery Group to aid those citizens affected by the flood after all other resources have been exhausted.
