Management Department...

FMC is the oldest and most established property management firm in Frederick County. Founded in 1979, this corporation continues to meet the demands of a growing and expanding region.

The management department is staffed by full-time, licensed, professional property managers. These managers perform experienced comprehensive property inspections, coordination of all maintenance and repairs, lease management and rent collections.

The accounting department is responsible for all the financial details. For your personal convenience, FMC will provide you a detailed financial report monthly, along with copies of all repair and replacement invoices. A year end summary will be available along with a 1099 ready for your own accountant or CPA.

FMC also provides direct deposit banking, mortgage and HOA payments, as well as escrow for taxes.

Our Commitment to you...

Noahs' Frederick Management Corporation provides a complete management system which combines our expertise with the actual needs of the client.

As a full service, professional leasing and property management company, our sole full time business is that of identifying good tenants and tailoring a lease to your needs. The protection of the value of your investment is accomplished not only through careful tenant screening and our comprehensive lease agreements, but also by property inspections while your property is tenanted. This assists the tenant in meeting their responsibility as well as keeping you abreast of necessary preventive maintenance needs. You will approve your tenant, but you can take full advantage of our experience, training and knowledge of both law and practice in the area of leasing, as well as our supervision capabilities.

Noahs' FMC is a member of the National Association of Residential Property Managers. This organization consists of a group of real estate professionals who subscribe to a code of ethics and standards of professionalism in property management.
