

# Preventive health services for women

Most health plans must cover additional preventive health services for women, ensuring a comprehensive set of preventive services like breast cancer screenings to meet women's unique health care needs.

## Comprehensive coverage for women's preventive care

All Marketplace health plans and many other plans must cover the following list of preventive services for women without charging you a copayment or coinsurance. This is true even if you haven't met your yearly deductible.

This applies only when these services are delivered by an in-network provider.

1. **Anemia screening** on a routine basis for pregnant women
2. **Breast Cancer Genetic Test Counseling (BRCA)** for women at higher risk for breast cancer
3. **Breast Cancer Mammography screenings** every 1 to 2 years for women over 40
4. **Breast Cancer Chemoprevention counseling** for women at higher risk
5. **Breastfeeding comprehensive support and counseling** from trained providers, and access to breastfeeding supplies, for pregnant and nursing women
6. **Cervical Cancer screening** for sexually active women
7. **Chlamydia Infection screening** for younger women and other women at higher risk
8. **Contraception:** Food and Drug Administration-approved contraceptive methods, sterilization procedures, and patient education and counseling, as prescribed by a health care provider for women with reproductive capacity (not including abortifacient drugs). This does not apply to health plans sponsored by certain exempt "religious employers."
9. **Domestic and interpersonal violence screening and counseling** for all women
10. **Folic Acid** supplements for women who may become pregnant
11. **Gestational diabetes screening** for women 24 to 28 weeks pregnant and those at high risk of developing gestational diabetes
12. **Gonorrhea screening** for all women at higher risk
13. **Hepatitis B screening** for pregnant women at their first prenatal visit
14. **HIV screening and counseling** for sexually active women
15. **Human Papillomavirus (HPV) DNA Test** every 3 years for women with normal cytology results who are 30 or older
16. **Osteoporosis screening** for women over age 60 depending on risk factors
17. **Rh Incompatibility screening** for all pregnant women and follow-up testing for women at higher risk
18. **Sexually Transmitted Infections counseling** for sexually active women
19. **Syphilis screening** for all pregnant women or other women at increased risk
20. **Tobacco Use screening and interventions** for all women, and expanded counseling for pregnant tobacco users
21. **Urinary tract or other infection screening** for pregnant women

22. **Well-woman visits** to get recommended services for women under 65
