Green Tea Benefits without the Negatives:

- Green tea is highest known source of antioxidants, but it has the negatives of caffeine and tannic acids.

- With 5000 years of research behind Sunrider's food combining, we can enjoy *Fortune Delight* as a great energy food, not just chopped up plant parts, but concentrated "vegetable soup" from many specially-formulated herbs including Camellia (Green tea without the caffeine effect in the body).

Alkalizing:

- Like a lemon, *Fortune Delight* is both acidic, (doesn't dilute the acid in the digestive system) yet has an alkalizing effect in the body.
- Fortune Delight promotes alkaline pH.

More than Just Tea:

Both *Calli* and *Fortune Delight* have been tested by gas chromatography to show the presence of important catechins, flavonoids and antioxidants! **Both beverages are more than just tea!**

Message from Dr. Chen regarding Calli and Fortune Delight

“Every food has a good side and bad side. One of them is camellia sinesis, which has been consumed by Asians for thousands of years. It has tea catechins (good) and caffeine and tannic acid (bad). Nearly all teas contain ground up, unclean, fumigated, and/or irradiated tea leaves and herbs. Sunrider’s herbal beverages are completely different and a true art. We hand and machine clean the herbs to get rid of insects, dirt, rocks, and more things that would ruin your appetite. It’s a time-consuming process. Then, we extract and concentrate the beneficial nutrients, minimizing the negative ingredients like caffeine and tannic acid. Finally, we spray-dry the concentrated extracts onto the concentrated tea catechins. The result is light years ahead of typical teas. Fortune Delight® and Calli® are nutrient-rich, enhanced herbal beverages.”
