ERA BRANDED MINERAL MINING LUBRICANTS

The ERA branded range of lubricants for mineral mining operations has been developed in conjunction with leading industry mining companies to ensure operational suitability and has been tested to ensure adherence to all necessary international standards and regulations. (ASTM, GB/T, SH/T, TSCA, EINECS, DSL, EICSC, NZIOC, PICCS, KECI, AICS)

ERA XT-ROD GREASE

Designed with less than 70% mineral oil content as a barium complex. Its function is to provide excellent adherence (XT = Extra Tacky) to drill rods during mineral mining operations to reduce drilling torque and the adverse effects of twist off. It will not wash off and is water resistant thereby maintaining its effectiveness over long periods of time under high pressure and temperature applications.

ERA DT-ZN50 THREAD GREASE

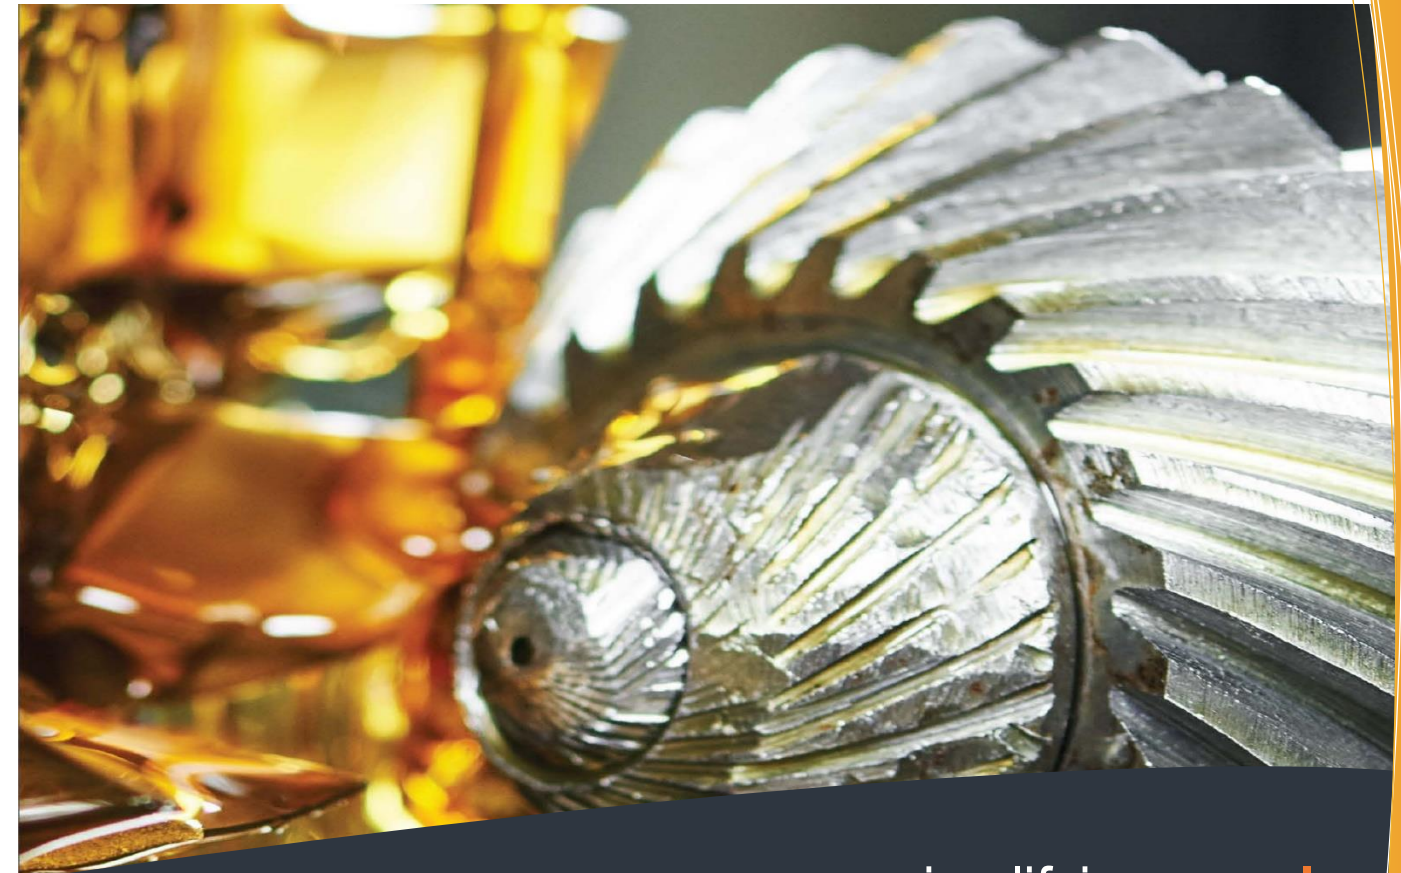

Designed with less than 50% mineral oil content and upto 50% zinc compounds blended into the final smooth creamy paste. Its function is to provide rust and corrosion protection to drilling rod and tool threads under extreme pressure and ambient temperature conditions.

ERA SLG (SEMI LIQUID GREASE)

Designed as a blend of pure fatty acids and water this pourable semi liquid product is 100% environmentally safe and non hazardous. Its function is to provide lubrication during coring operations, tight hole and stuck pipe situations. An excellent remedial product where high torque is an issue during drilling operations.

Lubricants at work for you

- Cost effective
- Managed supply chain
- Volume access
- International standard manufacturing
- Premium Product Ranges
- Marine
- Mining
- Industrial

Finding the right lubricant, when you need it, at a price that meets your budget and one that performs to the highest technical performance requirements.

ERA Oilfield Service (Thailand) Co Ltd., have over 10 years of experience supplying well service, drilling, completion and industrial equipment and services to SE Asia, MENA and Africa.

We now expand our excellence to ensuring that our clients have the best lubricants to maximise asset lifespan and improve operational performance.

CUSTOM SOLUTIONS

- Marine
- Oil and Gas
- Construction
- Automotive
- Heavy Industrial
- Mineral Mining
- Factory Production
- Metal Machining

ERA SOLUTIONS

- FACTORY DIRECT EXPORT ERA
 - ERA BRANDED SOLUTIONS
 - LOGISTICS MANAGEMENT
 - DIRECT DELIVERY GLOBALLY
 - COST EFFECTIVE UNIT AND VOLUME
- PRICING
- CONTINUOUS CLIENT SUPPORT
 - CERTIFIED PRODUCT RANGE TO INTERNATIONAL STANDARDS

Lubricant solutions for your mineral mining needs

TECHNOLOGY, PRODUCT AND LOGISTICS
A TOTAL END TO END SOLUTION.

MINERAL MINING LUBRICANTS

- HYDRAULIC OIL
- ROD GREASE
- ZINC 50 THREAD GREASE
- SEMI LIQUID GREASE
- HP COMPLEX GREASES
- HAMMER OIL (AIR TOOL EP 320)

COMPARISON TO INDUSTRY LEADING BRANDS

ERA Lubricants bring value in managed brand supply chain direct from the factory with field proven products developed in conjunction with leading industry drilling contractors in the mineral mining and exploration sector.

ERA Lubricants range provides exceptional performance across the mineral mining portfolio. To find out more contact us directly.

Extra Tacky Drilling Rod Grease

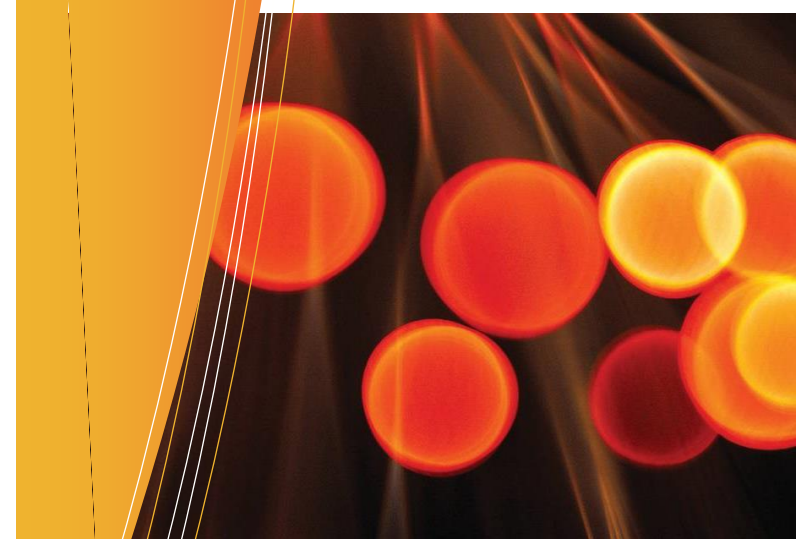

- ERA branded
- Barium content
- Non Hazardous
- High Adhesion Capability
- High torque reduction
- Waterproof

Zinc 50 Thread Grease

- High quality
- Blended zinc content
- High corrosion prevention
- High pressure applications
- Long life

Semi Liquid Grease

- Highly mobile, low surface tension coefficient
- Waterproof
- Biodegradeable
- Fatty acid composition
