

Saturday, June 24, 2017: Golden-winged Warbler Workshop 9:30 AM - 2 PM

1681 Dunkard Hollow Road, Alum Bank, PA 15521

We'll meet at John and Joanne Boggess' property, where a habitat improvement project for Golden-winged Warblers was completed in 2015. Biologists Emily Bellush and Clay Lutz, as well as Forester Shannon Ferrell, will explain the importance of healthy forests and how many species benefit from young forests. After time for discussion inside, we will eat lunch and then walk or ride to visit the habitat project. The workshop is rain or shine. Coffee, tea, fresh fruit, and juice will be provided.

What to bring: lunch, drinks, sunscreen, bug spray, walking stick, binoculars.

Please RSVP by Saturday, June 17 to
