This publication is not and should not be construed as an offer or solicitation to buy or sell securities mentioned herein.

SEC-Required report on routing of customer orders

[SEC Rule 606: Order Routing Practices](#)

International Assets Advisory LLC is required to make available quarterly reports that present a general overview of our routing practices. These reports identify the significant venues to which customer orders were routed for execution during the applicable quarter.

International Assets Advisory, LLC transmits the majority of our customer orders to our clearing firm, National Financial Services LLC (NFS), Member NYSE/SIPC. NFS may then route these orders to various venues for execution. Customers of IAA may also request a written copy of this report. To obtain information about the routing of a specific order executed within the prior six months, please send your written request to International Assets Advisory, LLC, 390 North Orange Avenue, Suite 750, Orlando, FL 32801 or to view the SEC Rule 606 Report for the most recent quarter, click below:

Anti-money laundering program

In response to the terrorist attacks on September 11, 2001, the US Congress passed the USA Patriot Act (Patriot Act). Section 326 of the Patriot Act provides that Treasury and SEC issue a rule that, at a minimum, requires broker/dealers to implement reasonable procedures to: (1) verify the identity of any person seeking to open an account, to the extent reasonable and practicable; (2) maintain records of the information used to verify the person's identity; and (3) determine whether the person appears on any lists of known or suspected terrorists or terrorist organizations provided to brokers or dealers by any government agency.

International investing or emerging markets

International investing involves additional risks such as currency fluctuations, differing financial and accounting standards, and possible political and economic instability. Also, investing in emerging markets can be riskier than investing in well-established foreign markets. There is no assurance any of the trends mentioned will continue in the future. Investing involves risk and investors may incur a profit or a loss, including the loss of all principal.

Asset Allocation Disclosure

Asset allocation does not ensure a profit or protect against a loss. Investing involves risk and investors may incur a profit or a loss. There is an inverse relationship between interest rate movements and fixed income prices. Generally, when interest rates rise, fixed income prices fall and when interest rates fall, fixed income prices rise. International investing involves special risks, including currency fluctuations, different financial accounting standards, and possible political and economic volatility. Declines in the value of real estate, economic conditions, property taxes, tax laws and interest rates all present potential risks to real estate investments. Alternative investments involve specific risks that may be greater than those associated with traditional investments and may be offered only to clients who meet specific suitability requirements, including minimum-net-worth tests. This information is not a complete summary or statement of all available data necessary for making an investment decision. Investing involves risk and investors may incur a profit or a loss. You should discuss any tax matters with the appropriate professional.

Tax/Professional Advice Disclosure

While we are familiar with tax matters, as Financial Advisors of International Assets Advisory LLC we are not qualified to render advice on tax or legal matters. Clients are advised to consult the appropriate professional for advice.

Historical or past performance

Past performance is not a guarantee of future results. Past performance may not be indicative of future results.

Risk Disclosure

The investment return and principal value of an investment security will fluctuate with market conditions so that when redeemed the value of the investment may be worth more or less than the original cost

Business continuity planning disclosure statement

International Assets has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be

flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us - If after a significant business disruption you cannot contact us as you usually do at 407-254-1500 or 800-432-0000, you should call our clearing firm, National Financial Services LLC for instructions on how it may provide prompt access to funds and securities, enter orders and process other trade-related, cash, and security transfer transactions.

Our Business Continuity Plan - We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back up and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, National Financial Services LLC, backs up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our clearing firm that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments within 24 to 48 hours or sooner. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions - Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within one trading day. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business within a very short reasonable time. In either situation we plan to continue business and notify you through our website www.iaac.com how to contact us.

For more information - If you have questions about our business continuity planning, you can contact us at 407-254-1500 or 800-432-0000 or contact your financial advisor.
