**Adams County Electric** desired a way to create a meeting room that could be adaptable to their numerous needs. Sennheiser microphones were installed in a mobile fashion allowing them to be put where they are needed. A touch panel was installed to adapt the settings of the room for the needs of the room. The room can be used for many different training and meeting purposes; thus, allowing the customer full room flexibility.

## Featuring The Following Equipment:

- 12 Sennheiser ME36 mini shotgun condenser Mics
- BSS BLU-160 Network signal processor/BLU 120
- 2 JBL Control 24c Vented ceiling speakers
- QSC CX168 power amplifier
- Aurora IBZ-1041W 10.4" wireless color touch panel
- Denon DNV310 DVD/CD Player

## ADAMS ELECTRIC
