Wayne County Truck and Tractor Pull

May 11, 2019

Wayne County Fairgrounds- Wooster, OH

\$5 Admission, Kids 10 and under are free

General Rules

All classes must have 5 or more to receive payout. If two vehicles hook in the same class only the first hook will be eligible for payout. Judges decisions are final.

Tractor Class Rules

4mph Stock Tractor Rules

- 4 mph speed limit
- Tractor must have one engine.
- Engine must have been available for make of tractor.
- No tires larger than 18.4" (excludes 8,500-lb stock), **top cuts are allowed, no full cuts**
- 20" hitch height
- Wheelie bars and kill switch are recommended.

6mph Stock Tractor Rules

- 6 mph speed limit
- Tractor must have one engine.
- Engine must have been available for make of tractor.
- No tires larger than 18.4, **full cuts allowed**
- 20" hitch height
- Wheelie bars and kill switch are mandatory

Open Tractor Rules

- All open classes have no tire limit
- Rotating clutch assembly must be totally surrounded with a minimum of 3/16" steel, 1/4" aluminum, or use an SFI 4.1 or 4.2-approved blanket. Blanket must completely surround clutch. Two blankets will be legal to accomplish this.
- Tractor must have a steel flywheel, tie bars, wheelie bars, kill switch, cross bolts, and side shields.
- Side shields must be a minimum of .090 if they are steel or .125 if they are aluminum.
- 20" hitch height, and 18" from center of rear axle
- Roll-caged tractor drivers must wear a helmet while pulling.

Wayne County Truck and Tractor Pull

May 11, 2019

Wayne County Fairgrounds- Wooster, OH

\$5 Admission, Kids 10 and under are free

Hot Farm Rules

- 20.8" maximum tire size
- 20" hitch height
- Tractor must have only one 2.8 or smaller turbo
- Tractor must use stock appearing frame
- Tractor must have one engine, a steel flywheel, tie bars, wheelie bars, kill switch, cross bolts, and side shields.
- Side shields must be a minimum of .090 if they are steel or .125 if they are aluminum.
- Rotating clutch assembly must be totally surrounded with a minimum of 3/16 steel, ¼" aluminum, or use an SFI 4.1 or 4.2-approved blanket. Blanket must completely surround clutch. Two blankets will be legal to accomplish this.
- Roll-caged tractor drivers must wear a helmet while pulling.
- Front weight bracket must not exceed 13 feet from the center of the rear axle (excluding tow hook)

12,500 lb. Improved Farm

- Operating weight of 12,500 lbs.
- 2.8 Turbo Inlet limit. No Plugs or reducers.
- 475 cubic inch limit.
- Stock appearing injection pumps allowed up to an "A" Pump Max. Maximum cc's of fuel allowed is 550cc. This is an entry level Improved Farm class. "A" pumps flowing in excess of 550cc is out of the scope of what this class is intended to be. As this is near impossible to tech, judges will have the final say on any tractors that seem to have an excessive fuel system.
- No water injection, or water injection parts allowed on tractor.
- Exhaust must discharge vertically from a straight pipe (no curves), and must have two 3/8 X bolts in pipe.
- No intercoolers or aftercoolers.
- Electric fan permitted.
- Transfer/Pusher pumps permitted
- Over 3,000 RPM require side shields, SFI approved steel fly wheel, clutch blanket, and air shut off controlled by sled operator.
- No cut tires allowed
- No aluminum rear wheels
- 20.8 max tire size
- No component tractors
- 20" hitch height
- 18" from center of rear axle to point of hook
- Working PTO and hydraulics

Wayne County Truck and Tractor Pull

May 11, 2019

Wayne County Fairgrounds- Wooster, OH

\$5 Admission, Kids 10 and under are free

6,500/7,000 Unlimited Open Farm

- 6500lbs max tire 24.5-32 *(20.8-38 accepted at 6500 lbs)*

- All one class
- Safety:
 - Cage or Roll bar
 - Harness or seat belt
 - Wheelie bars
 - Tie bars
 - Steel flywheel -clutch set up
 - Safety blanket
 - Kill switch-air (guillotine) and fuel shut off(fuel dump or three way valve)
 - Side shields .060 thick
 - 360 degree shield around stock harmonic balancer (if you are running belts for the alternator or water pump then a 1/8 plate directly below the balancer from side to side of frame must be present)
 - 3/8 cross bolts in exhaust pipe minimum grade 5
 - Turbo's out of hood must be covered with at least .060 sheet metal
 - Recommend but not mandatory 3/8 cable around block and head
 - Helmet
 - Must be a transmission and rear end of a farm tractor.....
 - No component tractors
 - 114" wheelbase-13ft from center of back axel to the furthest point forward not including the tow hook
 - Hitch must be at least 18" from center of back axel and be ridged in all directions
 - Any agricultural V8 diesel is acceptable (3208 cat or a Perkins)
 - NO Automotive V8 engines

UOF update

Ok I going to try and clear the air on the new addition to our rules. We added that the 20.8-38 could be run in the class but at 6500lbs only, so the maximum tire size for the 6500lbs is anything up to a 24.5-32, and the maximum tire size for 7000lbs is 18.4-38s. No exceptions. And for new people interested in the class it is a combination weight class. Both 6500 and 7000lb tractors pull together.

And we are going to change the points for this year and it will go as follows: points will be given for show up and hook, if the pull is called because of weather or sled breakage you will receive show up points. If the pull proceeds after the delay, anyone leaving before the hook will forfeit their show up points. If you are interested in running for points this year, we are going to put \$50 per tractor in the kittie for the banquet and will have a sponsor decals and an ID number for your tractor that will have to be present at the class pulls in order to receive points. Rule question and to become eligible for points call: Rich at 330-418-0003.

Wayne County Truck and Tractor Pull

May 11, 2019

Wayne County Fairgrounds- Wooster, OH

\$5 Admission, Kids 10 and under are free
