

THE HUSTLING HAMSTER WILL TAKE YOU WHERE YOU NEED TO GO!

— Sandy Conrad
sconrad@fvshopper.com

For 26 years, Renee Stillman was a Long Haul Trucker. In April of this year, she decided it was time to stick closer to home and founded The Hustling Hamster. A resident of Wildwood in Sandwich, she realized that there were no taxis in her hometown and there was a real need for a service she could provide since she loved to drive.

She drives people to and from their various destinations throughout northern and central Illinois (south as far as Springfield) and southern Wisconsin (no farther than Milwaukee) for purposes of running every kind of errand imaginable.

She loves meeting new people, has a friendly, outgoing personality and is always on her best professional behavior with customers in her new, comfortable vehicle, a Kia Soul.

Even when customers require transportation for doctor's appointments, to do grocery shopping or attend funerals, she waits to take them home afterwards when needed.

Most importantly, Renee is happy to serve as a "Designated Driver." She does a pick-up from a restaurant or bar, and takes those people who have been smart enough to engage her services safely and directly home.

The Hustling Hamster can accommodate up to three riders at a time. Prices are comparable to Uber and Lyft; charges are per mile. She has built the business with referrals from satisfied customers, many of whom employ her repeatedly on a regular basis plus simply, word of mouth. A 20% discount will be given on every sixth ride.

Sheila G says "...One day, I needed a ride to work and wasn't in a very good mood. Renee is amazing; she made me laugh; she's so caring and sweet and now I use her quite often. Her car is always clean and I feel very safe with her as my driver; I now call her a friend."

Cindy & Jim T "...highly recommend Renee to friends and family. We met through a mutual friend and have become good friends. We needed a ride to Springfield for a family funeral; her fare...was fair! She had great service....including something to drink ...and snacks for the trip. Overall, it was a great ride from home and back."
