

Groundhog Puppet

Materials:

- toilet paper tube
- brown tempera paint
- green construction paper 1 inch by 6 inches
- paste
- scissors
- groundhog coloring picture
- craft stick

Directions:

1. Paint the outside of a toilet paper tube brown. This will be your groundhog's burrow. Set it aside to dry.
2. Color the groundhog. Cut it out and glue it onto a craft stick.
3. Using a ruler, draw a straight line across the green paper 1/2 inch from the bottom.
4. Cut fringe in the green paper. Don't cut past the line you drew.
5. Paste the fringe on one end of the toilet paper tube. Bend the fringe out a little.
6. Put your groundhog in its burrow. Now you can make him appear and disappear. Does he see his shadow?
7. Clean up your materials.

Run on tag. Cut apart. Each student needs 1.
