

## Where's The Beef? - by Peter Green

For each of the 8 letter answers in this puzzle the answer word is a combination of two 4 letter words (i.e. drawback or turnpike). For these answer words I have clued each 4 letter part separately and it the solver's responsibility to determine which four letter word pairs with which.

The clues are presented in alphabetical order of the answer word and the answers include 6 capitalized words, 1 archaic word and 1 abbreviation.

When completed properly both the 4 corners and the 4 central squares can each be anagrammed into a 4 letter word. These 2 words can then be combined into an 8 letter word descriptive of the title of the puzzle.

1. Traveling fair with energy is sizzling
2. The balm osteopaths use virtually
3. Parisian friend of the dreamiest extraction
4. Grizzly bear loses energy for a Syrian maybe
5. Rings are nothing next to well-mixed beer
