

Personal Assistance Services (PAS)

...is in-home attendant services to people who have an approved medical need for assistance with personal care tasks. It is available to eligible people whose health problems cause them to be functionally limited in performing activities of daily living according to a practitioner's statement of medical need.

What services are provided?

- **Escort:** Accompanying a person to a medical appointment. This service does not include direct transportation by an attendant.
- **Home Management:** Help with housekeeping activities to support the person's health and safety, including cleaning, laundry, shopping and other household tasks.
- **Personal Care:** Help with activities related to physical health, including bathing, dressing, grooming, routine hair and skin care, preparing meals, feeding, exercising, helping with self-administered medication, toileting, and transferring/ambulating.

Service with compassion and respect!

Activities of Daily Living (ADL)

Tasks required to get going in the morning, get from place to place using one's body, and then close out the day in the evening. They include:

- bathing; dressing; toileting;
- brushing teeth; eating.

Instrumental Activities of Daily Living (iADL)

Activities that people do once they are up, dressed and put together. These tasks support an independent life style:

- cooking; driving; using the telephone or computer; shopping;
- keeping track of finances; managing medication
