## Templeton's "Almost Daily" News

Serving the residents of the greater Templeton area since 2000

CASTORO  
CELLARS

This **JULY 21 UPDATE** is brought to you by the Udsen family at Castoro Cellars. The husband and wife team of Niels and Bimmer Udsen established Castoro Cellars in 1983 with the goal of producing world-class wines from Paso Robles-appellation grapes.

They have shaped Castoro Cellars into a business that mirrors their own family oriented values that offer a family-friendly tasting room serving alcohol free Zinfandel grape juice. Additionally, they offer

their employees a business environment that understands the flexibility necessary for raising a family.

Castoro's tasting room is in Templeton off scenic Hwy 46W at Bethel Road and the winemaking facility is located on the eastside of Paso Robles in San Miguel. Castoro is certified organic and all the 1,400 acres of vineyards are SIP certified.

### MAKE IT AN EVENT TO REMEMBER

At Castoro Cellars we host events year round, from concerts and festivals to weddings and private parties. Make sure to check out our calendar of events regularly to see what we have in store.

Please visit [www.castorocellars.com/events](http://www.castorocellars.com/events).

WHALE ROCK  
MUSIC AND ARTS FESTIVAL

### SAVE THE DATES!

Save the dates for Whale Rock Music & Arts Festival 2019 – September 14th and 15th! Enjoy two days of wine-loving, peace and jamming, family-friendly fun in

the vines. The festival is a benefit for Templeton music education through TIMBA (Templeton Instrumental Music Boosters Association). For more information or to purchase tickets, please [CLICK HERE](#).

## LOCAL GOVERNMENT

---

## TAAG gives a “thumbs up” to mixed-use project

*Information provided by Christopher Cobey, TAAG Chair*

The application for Sphere Partners mixed-use project in Templeton where Hoover’s Restaurant and several business offices – including the Livestock Market office – were previously located, was given a 6-0 thumbs up by the Templeton Area Advisory Group (TAAG) at last Thursday night’s meeting.

The Toad Creek Safe Harbor presentation by the Upper Salinas – Las Tablas Resource Conservation District (US-LT RCD) was postponed to the August 15 TAAG meeting, and a letter outlining TAAG’s concerns regarding the Paso Gateway Project will be sent to the City of Paso Robles and then posted on TAAG’s website in the near future.

Regarding TAAG’s interest in ALL unincorporated areas of San Luis Obispo County being represented by County Advisory Councils (CACs), two delegates (Murray Powell and Jon DeMorales) were authorized to meet with other CAC members to explore mutually advantages goals. Currently, CACs only cover 40 percent of the County’s unincorporated areas.

## PURE WATER

---

### “San Diego scientists make waves in climate research”

*KPBS – July 19, 2019\*\**

*By Erik Anderson*

San Diego researchers are collaborating to understand the ocean’s role in the planet’s climate. The work is happening in a wood-framed building on the Scripps Institution of Oceanography campus. The structure’s roof mimics the shape of a wave. Inside is a long glass chute which allows researchers to bring the ocean into the lab.

---

## “SF State team test surprising new tools for slowing climate change”

*SF State News – July 18, 2019*

*By Patrick Monahan*

Meadows and beaver dams are the focus of an ambitious study at the Sierra Nevada Field Campus.

Please [CLICK HERE](#) to read more.

---

## “Can beavers clean our water and restore wild salmon populations?”

*MERCOLA – January 1, 2019*

*Analysis by Dr. Joseph Mercola*

Beavers are “ecosystem engineers” with an “ability to manipulate and change their environment” that’s second only to humans; their creation of dams and ponds benefits many other animal, bird and insect species.

The density and survival of juvenile steelhead increased following the installation of simulated beaver dams. One of the beaver’s greatest gifts to the environment is slowing down water flows and impounding water, which results in water storage, which allows water to infiltrate the ground and restore aquifers.

## ABOUT SOARING EAGLE PRESS

---

### TEMPLETON'S ALMOST DAILY NEWS

*Serving the residents of the greater Templeton area since 2000*

Templeton's "Almost Daily" is published by Soaring Eagle Press and is made possible through a team

of dedicated, local sponsors. The

publication serves the greater

Templeton area throughout the school district boundaries and provides a central clearing house for community information and other items of interest.

Its Mission Statement is - "First and foremost to let readers know what's coming up so they can remain informed and involved, secondly to highlight our youth's achievements because they are both the focus and the future of our community, and finally, deal with the adult shenanigans when there is time and space."
