

IMAGINE HOW MUCH WE COULD ACCOMPLISH IF WE REPEATED THESE THINGS UNTIL THEY STUCK

We are for LIFE, FREEDOM & INCLUSIVE PROSPERITY, as well as for building a more resilient foundation for future generations — we want to leave the house in better shape than we found it. But we know we're all in it together, and that we can't get there without some degree of empathy, love of neighbor, and social responsibility, among other important values such as integrity and trustworthiness. Not only is inclusive prosperity the right thing to do, but also it strengthens families and communities.

*We know the other side's brand of freedom ("liberty").
What's our brand? WHAT DO WE KNOW?*

If you get cancer, break a leg, or get cataracts, and lack health insurance, you are not free.

If you can't get a decent education, you are not free.

If you are a woman and do not fully control your body, you are not free.

If you cannot marry someone you love, you are not free.

If your government largely benefits only the wealthiest and you don't get the fighting chance you deserve to get ahead, you are not free.

If your government dishonestly & unnecessarily gets into foreign wars and vets return to your community w/visible and invisible wounds, your freedom has been compromised. And if you lose government services to pay the heavy debt left by the war, you're not free.
