

## TAE-REP, Inc.

320 N. Washington St., Rochester, NY 14625

Rochester Tel: 585/586-8710 Fax: 585/586-8719 Clifton Park Tel: 518/371-3117 Fax: 518/383-3435

Product Line Card – May 2017

**Proudly Serving Upstate NY Since 1980**

[www.adaptivepower.com](http://www.adaptivepower.com)

- Economical AC voltage and frequency converters
- 500VA to 120kVA single chassis models

[www.avitech.com](http://www.avitech.com)

- Aircraft databus test & simulation hardware and software, and Dataloaders.
- MIL-STD-1553, ARINC 429, Fibre Channel, and HS1760

[www.dataforth.com](http://www.dataforth.com)

- Industrial signal conditioners and isolators
- 5B, 7B, 8B, 9B and DIN formats
- Distributed data acquisition systems

GE  
Measurement & Control

[www.gemeasurement.com](http://www.gemeasurement.com)

### GE Druck

- Pressure transducers and transmitters to 10,000 psi
- Digital pressure indicators, controllers and calibrators

### GE Panametrics

- Ultrasonic and mass vortex flow meters
- Trace moisture analyzers and transmitters
- Oxygen analyzers and transmitters
- Binary gas transmitters

[www.gwinstek.com/en-us](http://www.gwinstek.com/en-us)

- Analog & digital oscilloscopes
- DC power supplies and programmable loads
- Spectrum analyzers and ARBs
- Safety testers, LCR meters, function generators

[www.mecmesincorp.com](http://www.mecmesincorp.com)

- Force and torque test systems and instruments

[www.endevco.com](http://www.endevco.com)

- PE/IEPE/PR/VC accelerometers
- Fast response pressure transducers
- Signal conditioners, charge amps, filters, and shakers

[www.pacificinstruments.com](http://www.pacificinstruments.com)

- High performance data acquisition systems
- Programmable signal conditioning amplifiers
- Ruggedized transient recorders

[www.pacificpower.com](http://www.pacificpower.com)

- Programmable AC and AC+DC power sources
- 500VA to 62.5kVA, parallel to 625kVA
- DO-160, MIL-STD-704, Boeing, and Airbus test software

[www.us.regatron.com](http://www.us.regatron.com)

- High power, modular DC power systems
- 2 & 4-quadrant systems with grid-tie functionality
- High power regenerative DC electronic loads

[us.tdk-lambda.com/hp/](http://us.tdk-lambda.com/hp/)

- System DC power supplies from 750 W to 90 kW
- Programmable lab DC power supplies

[tmi.yokogawa.com/us](http://tmi.yokogawa.com/us)

- DSOs & MSOs with extensive serial bus analysis
- Digital power analyzers and power meters
- Data acquisition and recorder products

**For more information and links to the above manufacturers, visit [www.taerep.com](http://www.taerep.com).**

Consider these world-class AC & DC power products for your next project. Contact TAE-REP for applications support.

- Economical AC and AC+DC voltage and frequency converters
- 500VA to 120kVA single chassis models
- Ideal for 50/60/400Hz production testing and bench distribution
- Fast delivery

- Highly programmable AC and DC power supplies
- Rackmount and benchtop
- Dynamic DC loads
- Safety Testers

- Precision AC and AC+DC power sources
- Highly programmable and reliable
- Ideal for product development, avionics qual test, safety test, EMC labs, and ATE
- DO-160, MIL-STD-704 and Airbus test software

- High power, modular DC power systems
- 1, 2 and 4 quadrant systems
- High power regenerative DC loads
- 4-quadrant AC grid simulators

- GENESYS™ family of high performance programmable DC supplies, 750W to 15kW
- Series to 30kW, parallel to 60kW

- Digital power analyzers with 1 to 6 phase inputs
- Extensive analysis functions
- Torque & speed inputs for motor & system analysis
- IEC61000 harmonics and flicker compliance software
- Precision current sources and SMUs
