

COVID-19 Update

It is heartbreaking to see the suffering and uncertainty that the COVID-19 virus is causing all over the world. Due to all the concerns over the Coronavirus, we want to let you know that we are carefully following the CDC guidelines as well as keeping ourselves updated and it is our top priority to provide a safe environment for all.

To do our part in minimizing the spread of the virus, and to protect our customers and team members, our company and workers have implemented the following precautions:

- + Wash our hands thoroughly before and after each cleaning.
- + We will be ventilating the rooms before we clean and utilizing sanitized gloves, facial masks and sanitized materials.
- + All the heavily-touched surfaces, such as doorknobs, all remote controls, light switches, etc., will be cleaned and disinfected every time.
- + Our employees have been instructed to stay home if they have any flu/cold symptoms or have been in contact with anyone who was exposed to the virus or experiencing any type of sickness.

We are committed to doing our part to keep everyone healthy and safe.
Thank you from all of us at Seaside Cleaning Services.

We wish you and your family good health and safety.
