- a. City Manager Susie Marston outlined information that she had prepared for the council that showed a need for a water rate increase. Research completed in 2006 indicated the water rates should have been increased by 40% in 2007. The water rates were only increased by 30% at that time and Susie recommends that the current rate is increased to make up for the portion that was not increased. There was a discussion between Susie and the council about the current rates and the proposed water rate increase.
