Re: Guido Sansica

To whom it may concern;

Having personally been involved in historic restoration work for over 30 years and now knowing and working with Guido Sansica since 2009, I am pleased to provide this open letter of recommendation as to his expertise and professionalism.

Mr. Sansica's mastery of his craft are best exemplified by our two most recent projects together, being the painting, faux graining and refinishing of original 19<sup>th</sup> century millwork within the circa 1849 Chapel at The Evergreens Cemetery, Brooklyn NY as well as the restoration and refinishing of the circa 1761 "Skidmore House" located in Northport, NY.

His knowledge of product and process, combined with an artistic hand, have produced results of nothing but the highest quality.

What speaks even more highly for Mr. Sansica are his professionalism and ability to work through any difficulties that may, from time to time, arise on a project. In one case he adjusted his schedule to evenings and weekends to complete all refinishing work, without causing the staff to vacate the area during regular hours.

It is a true pleasure to work with Mr. Sansica and I remain a continuing reference to all his work.

Sincerely,

Anton G. Wetzel, Pres.  
Historic Construction Mgmt. Corp.
