Informed Consent

Chiropractic, along with other types of healthcare, is associated with potential risks in the delivery of treatment. Therefore, it is necessary to inform the patient of such risks prior to initiating care. While Chiropractic treatment is remarkably safe, you need to be informed about the potential risks related to your care to allow you to be fully informed in contesting to treatment

Specific Risk Possibilities Associated with Chiropractic Care:

Stroke: Stroke is the most serious complication of Chiropractic Treatment, and the rarest. According to the journal of CCA, vol. 37, no. 2, June 1993, recent studies estimate the risk of this type of stroke is 1 in every 3 million upper cervical adjustments. Vertebral arteries, which supply the brain with blood, are located within the bones of the upper spine. Therefore, cervical treatment poses a small risk for a stroke, which could result in temporary or permanent brain dysfunction, with some extreme cases resulting in death.

Soreness: Chiropractic adjustments are sometimes accompanied with post treatment soreness. This is normal, but be sure to inform your doctor of Chiropractic of the soreness.

Soft Tissue Injury: Occasionally Chiropractic treatment may aggravate a disc injury, or cause a minor joint, ligament, tendon or other soft tissue injury.

Rib Injury: Manual adjustments to the thoracic spine could cause a rib injury or fracture. Keep in mind that this is very uncommon, and treatment is performed very carefully to minimize such risk. Precautions such as pre-adjustment X-rays are taken and thoroughly analyzed in cases that are considered at risk of such injury.

Physical Therapy Burns: Heat generated by physical therapy modalities can cause minor burns to the skin. Burns that are serious are very unlikely, but should be reported, as well, as other side effects you may be experiencing.

Chiropractic is a system of health care delivery and therefore, as with any health care delivery system, we cannot promise a cure for any symptoms, condition or disease. An attempt to provide the best Chiropractic care is our goal, and if the results are not successful, we will kindly refer you to another health care provider. If you have any questions, please ask your doctor.

Having carefully read the above, I hereby give my informed consent to have Chiropractic treatment administered.
