

AGD SYSTEMS provides contracted support of captive carry tests at NASA Launch and Landing Facility, (LLF) formerly the Shuttle Landing Facility at Kennedy Space Center Florida.

Press Release • October 07, 2019 12:00 EDT

Cape Canaveral, Florida October 07, 2019 (Newswire) - AGD SYSTEMS announces its collaboration and selection as a teaming member with Starfighters Aerospace, located at the NASA (LLF) at the Kennedy Space Center facility to supply services as a subcontractor in providing the TA-4J Skyhawk in association with the F-104 for expected captive-carry tests of a sub-orbital rocket. Mark Daniels, CEO of AGD SYSTEMS was quoted saying, “with the new efforts to send smaller satellites into orbit, we are really looking forward to new opportunities in the current space-race environment”, said Daniels.

About AGD SYSTEMS CORPORATION

AGD SYSTEMS CORPORATION (www.agdsystems.com) is an emerging international company that focuses its business case in the transportation sector providing services to government and commercial industry. AGD Systems recently acquired AeroGroup Incorporated. AeroGroup has been supporting military pilot training, research and development programs since 1999. AeroGroup was the first civilian commercial company to perform F-16 training programs in the Continental United States for the Dutch Air Force and OCONUS F-16MLU training for the Belgian Air Component. AGD Systems provides assets for military operations under government contracts, including; sales, services, training, maintenance, parts, subject matter experts, consultants, logistics, technology design, testing, development, and research.

AGD SYSTEMS CORP is a U.S. Based Defense Contractor.
