### From the Mayor's Desk

To our citizens of the Town of Summerton, from the beginning of mankind, we can discover the proof...strength and unity lies in the numbers. Unity is strength. We have consistently been stronger performers when united. Our history is filled with occurrences, where we have accomplished things that we couldn't accomplish separately. Likewise, to face anything we need strength that accompanies unity. As long as we put God first in our vision and decision-making for this Town, we'll never go wrong.

It is my vision and passion as Mayor to build a stronger working relationship with Council, the Administration and citizens of the Town of Summerton. Regardless of our differences of opinion, this Town has strong and great potential. We have good people who live in this Town and want to see growth and unity.

As Mayor, I assure you that I will hold a high standard of professionalism and accountability to the citizens of the Town of Summerton.

As Mayor, I will collaborate with Council and the Town Administration to assure that everything is above board and transparent. Although, at times some may not agree with some decision-making, we will be careful throughout the process for the best interest of every stakeholder involved. We will take into consideration at all times to make sound decisions that will impact this Town.

Town of Summerton is in need of much needed projects that will help move this Town forward. Please keep in mind that these issues did not happen overnight, so please work patiently with us to address these concerns in a timely manner.

It is my priority to work with every agency throughout this state to obtain any available resource to help more our Town forward with the growth that's needed.

Again, thank you for the opportunity to serve as Mayor. I am looking forward to working with the citizens of Summerton in a positive and professional manner.

Respectfully Submitted,

Town of Summerton Mayor  
Tony Junious
