- (e) I am continuously _____ (do) action researches in my school.

Direction (Q. Nos. 7 & 8) : Read the following passage carefully and answer the questions.

There are several birds which are very common in our locality. The house sparrow is one of them. Sparrows are found in plenty in our locality. They like to live with people. So they make themselves quite at home in houses.

Sparrows build their nests wherever they can – on window sills, the top of doors and almirahs, and in nooks and corners. Their nest can be found in holes and niches in walls and on roofs and in the most unlikely places, even inside the folds of hanging curtains ! Their chirping pleases us but at times they are also a nuisance.
