MO-KAN CHAPTER

As we head further into the 21st century, the generic leadership model of the 20th century is just not relevant any longer. Based on The Nine Essentials of Significant Leadership™, this session focuses on a higher standard and the leadership characteristics that will be most important to success in the next thirty years.

The bottom-line results of reduced attrition, increased productivity, increased customer satisfaction and increased profitability will take care of themselves if you drive the higher level, essential concepts of Significant Leadership.

This engaging and interactive session equips you with the foundation and skills you need to lead on a daily basis, whether you hold a leadership title or not.

After completing this session, participants will be able to:

- Comprehend the concept of Internal Leadership as a guiding leadership principle.
- Respond appropriately to team diversity, personality and style challenges
- Identify the *Nine Essentials of Significant Leadership*™ and how to use them to create a culture of respect and growth in the organization.
