Powers' Picks Star-Rated Plays in CFB/NFL 463-369-16 (56%) Including Post-Season! Season Win Total Projections Pg 4, CFB Game of Years Pg 5

No Sports, What's Next?

Obviously, we are currently living in times of great uncertainty. First and foremost, our thoughts are with all of you as we hope you stay safe and healthy in the coming weeks and months.

With the corona virus impacting (directly or indirectly) all of our lives at the moment, sports is probably the last thing on your minds and deservedly so. Health and your families should always come first!

However, for those of you that are in quarantine and need some extra reading material, we have spent the last two weeks with no sports trying to get a jump on the upcoming football season. Right now, there is uncertainty on whether or not football will be played and even if it is played will there be fans in attendance? We don't have those answers right now, but we will try to be optimistic and project that we will see some football this fall.

In this issue you will find pretty much everything you need to get a jump start on college football. We have returning starters, power ratings, strength of schedule ratings, season win total projections and also for the first time in March...projected lines on every single game.

Please note that it is very early in the evaluation process and our final preseason power ratings and projections won't be completed until mid-summer. Still, we are very confident that you won't find a better set of power ratings and projections right now in the market place.

For you NFL fans, the next issue (sent April 15th) will get you all set for the upcoming NFL Draft and NFL season.

Finally, for those of you that are already signed up for the upcoming football season, again we hope that this season will be played. If for some reason it is not, then we will handle refund options at that time. Obviously, with the economy taking a major hit, discretionary income will be hard to come by this year and maybe for the next several years.

Therefore, any customer that is already signed up for 2020 football (newsletter or VIP) will be automatically enrolled in our "grandfather" program. The "grandfather" program means that no matter what price inflation rates are in the coming years and decades that we are in business, you will never pay more than what you paid this year for our services. For example, if you paid \$79 for this year's newsletter. That will be the cost of the newsletter next year. It will be the cost of the newsletter for you in 2025, 2035 and even the year 2045 as long as we're still here and in business.

Again, our thoughts and prayers are with all of you out there. Stay safe and healthy and we will be talking to you very soon.

Sincerely,

Brad Powers and Staff

New CFB Head Coaches for 2020

With the corona virus impacting practice schedules and recruiting across the country these new head coaches for 2020 will really be challenged this season. Especially those coaches who were hired late in the process like Michigan St's Mel Tucker and Colorado's Karl Dorrell who were both hired after signing day.

Georgia Ranks No. 1 in 247Sports 2020 Team Composite Recruiting Rankings

BP Sports used to do an average of all the major recruiting service rankings to come up with our own rankings. However, the 247Sports Composite rankings already does that for us. It is a proprietary algorithm that compiles recruiting rankings and ratings listed in the public domain by the major media recruiting services (ESPN, Rivals, 247, etc) creating the industry's most comprehensive and unbiased prospect and team rankings. (Total = # of signees, 5★ = # of star-rated signees).

2020 College Football Early Season Win Total Projections

In order to come up with a season win total projection, we take the projected spread of each game and figure out a win percentage chance for that game. If you have a 90% chance to win a game, you get credit for 0.9 of a win. If you have a 20% chance to win a game, you get credit for 0.2 of a win. When you add up the win percentages for all 12 games, you get an early season win total projection.

Below is an example for Clemson this year. The Tigers will be favored in all 12 games this year and 10 of those by more than 25 points. Does that mean Clemson's season win total should be close to 12? Not when you do the correct math as you get a season win total of 11.26 for the Tigers.

Clemson Date	Opponent	Line	Win %

Brad Powers' Heisman Betting Rules

No. 1. It's okay to bet long-shots. Nine of the last 11 winners have been 20/1 or greater in the preseason including Joe Burrow 200/1 last year!

No. 2. It's a QB Award. 17 of the last 20 winners have been QB's!

No. 3. The winner has to play on a highly rated team. The average regular season wins for the last 20 Heisman winners: 10.95!

Brad Powers' Favorite Heisman Bet Right Now:

1. Kellen Mond (QB Texas A&M) 50/1

Mond is a dual-threat QB with 7,379 career pass yards, 1,314 career rush yards and 70 career total TD's. Mond has improved his completion % each year. Texas A&M is a Top 10 caliber team this season with a beneficial schedule that could see them start the season at least 9-1.
