Ten years of Active Production

Can you believe it's been ten years since we first opened and began production at Prairie Gleaners?

In June 2009, our first plant opened its doors. This was at the Industrial Avenue location in

Medicine Hat – in the Central Neighbourhood HUB facility. It afforded a great start for us, and several other local charities, thanks to the wonderful support of a local business. How many remember those early beginnings? Later on, in December 2011, after much prayer and searching, we moved to our present very well-suited location in Cypress County.

We will be taking some trips down memory lane in the months ahead and have other activities planned as well. We give all the glory and thanks to God for this work. Join us as we remember what He has done and as we continue to 'SHARE IT FORWARD' to others around the world and for years to come.

New Bag Sealer

Having arrived just last week, below is a photo of our latest equipment acquisition to assist us with the production of our dehydrated vegetable mix,. Thank you Lions Club of Medicine Hat for this gift.
