US VIRGIN ISLANDS

LTG
THE AMERICAS AWARDS 2016

St. Croix may be small, but it is rich in its heritage and cultural history. There is no better way to fully take in this utterly tranquil and tropical atmosphere than on horseback. Equus Rides offers two hour tours of the island, riding through St Croix's beautiful plantations, sugar mills and other ruins, before guests are invited to take a dip in the Caribbean Sea with their horse companion. Guests of all levels of riding experience are welcomed, and horses are allocated according to each individual's ability. Younger children can also enjoy the horseback experience with Eeyore, a smaller donkey that Equus Rides are willing to saddle up.

Tours are capably led by 'Cane Bay Cowboy' Steve on the trail ride along the coast. Famous amongst the locals of St. Croix, Steve makes guests feel especially welcome on the tours with his warm and friendly personality, and in-depth knowledge of local sites. Steve's utmost respect for his horses and his guests allows everyone on the tour to feel comfortable. It is Steve's good relations with locals that allow Equus Rides tours to be distinct from those offered by competitors on the island; only tours lead by Steve are allowed to have such close access to sites, such as the factory ruins of Estate-Rust-Op-Twist – providing photo opportunities like no other of this beautiful island.
