

Aloe X Blue Elf “Blue Elf Aloe”

The Blue Elf Aloe is a wonderful succulent for any rock garden in the southwest. Blooming as early as January it can live in temperatures down to 28 degrees. Loving the full sun to filter shade. It shows off blooms all spring and intermittently through summer. Reaching a maximum height of 1.5 feet to 2 feet and up to 3 feet wide. Requiring little water and good drainage with minimal maintenance required. Not desirable to rabbits, Javelina or deer makes it that much more desirable.
