

## **PARKING PERMIT POLICY**

**POLICY:** It is the policy of the Cove Point Beach Association (CPBA) Board of Directors to issue, upon request and after receiving the required vehicle information, up to a maximum of two (2) parking permits per household to active, regular members of the Association regardless of the number of properties or vehicles owned.

Parking permits will only be issued to active, regular members of the Association, defined in the CPBA Bylaws (Article III, Sec.5) as members whose Association dues are current and paid in full.

Parking permits are to be affixed to the rear window of the vehicle.

Parking permits are not transferable and are for the sole use of active, regular members to whom they are issued.

Parking permits are not issued for use by guests or renters.

**PURPOSE AND IMPLEMENTATION:** Parking permits will be used by our security patrol and the Security Committee members to ensure that vehicles parked at the beach entrances belong to members of the community with permitted access to the Association's property. This will assist in identifying unlawful or unauthorized use of our community's deeded access to Cove Point Beach. Vehicles parked at the beach entrances without a valid and properly affixed parking permit may be subject to ticketing for trespassing.
