# MASKS

- **Staff and instructors will be required** to wear a mask while in the facility of Edgez Dance.
- **Dancers will be required** to wear a mask while at Edgez Dance, including while actively dancing.
- **Parents, guardians, and guests** who are in the facility of Edgez Dance are also **required** to be masked in consideration for our dance family
- Please note all masks are not created the same; if your student doesn't like dancing in a mask feel free to have them try different styles such as adjustable ties or different materials.

### CDC Guidance as of July 9th, 2021

- Masks should be worn indoors by all individuals (age 2 and older) who are not fully vaccinated. Consistent and correct mask use by people who are not fully vaccinated is especially important indoors and in crowded settings, when physical distancing cannot be maintained.
- CDC recommends schools maintain at least 3 feet of physical distance between students within classrooms, combined with indoor mask-wearing by people who are not fully vaccinated, to reduce transmission risk. When it is not possible to maintain a physical distance of at least 3 feet, it is especially important to layer multiple other prevention strategies, such as indoor masking.
- Ventilation, handwashing, and respiratory etiquette staying home when sick and getting tested, contact tracing in combination with quarantine and isolation, and cleaning and disinfection are also important layers of prevention to keep our studio safe.
- Students, teachers, and staff should stay home when they have signs of any infectious illness and be referred to their healthcare provider for testing and care.

**At Edgez Dance we serve children under the age of 12 who are not eligible for vaccination at this time. Therefore, this guidance emphasizes implementing layered prevention strategies (e.g., using multiple prevention strategies together consistently) to protect people who are not fully vaccinated, including students, teachers, staff, and other members of their households.**
