

# Lo-PH Vehicle Prep

CONCENTRATE  
PRODUCT NO.: WH-351

- Non-Caustic
- Biodegradable
- Phosphate Free
- Safe to Use on All Auto Finishes

Lo-PH Vehicle Prep Concentrate is used as a "first step" to a two-step car wash operation. This product is sprayed on the surface of the vehicle to release the static magnetism and loosen the soils - allowing the High PH Wash "step two" to easily remove the road film. A High PH Wash would be WH-360 Brush/Brushless Vehicle Wash Concentrate and WH-363 Ultra Concentrate Vehicle Wash (Presoak).

Applications & Uses	Dilutions	Directions
Automatic Wash Systems	20:1 to 64:1	Dilute product and operate machinery according to the manufacturer's directions for use. To be used as the first step pre-treat in a two-step wash system.
